I, DOUGLAS HAN, hereby declare as follows:

1. I am an attorney duly licensed to practice law before all courts of the State of California and am the founding member of Justice Law Corporation. I am the attorney of record and co-counsel for Plaintiffs Jobany Rodriguez and Janet Ugale, individually and on behalf of other members of the public similarly situated and on behalf of aggrieved employees pursuant to the Private Attorneys General Act (“PAGA”) (collectively, “Plaintiffs”). I have personal knowledge of the facts set forth herein and if called to testify I could and would do so competently.

2. In May of 2004, I graduated from Pepperdine University School of Law with a law degree. In May of 2001, I obtained a Bachelor of Science degree in Political Science and English from University of Houston.

3. From approximately January 2004 to approximately May 2004, I served as a clerk to the Honorable Lourdes G. Baird of the United States District Court for the Central District of California.

4. Since its inception, in or around April of 2013, our firm has almost exclusively prosecuted the prosecution of consumer and employment class actions, involving wage-and-hour business practices or consumer fraud. Since that time, our firm has successfully litigated over one hundred eighty (180) wage-and-hour class or representative actions. Currently, our attorneys have been named as counsel in over a dozen employment-related putative class actions in both state and federal courts in the State of California. During this relatively short time, in association with other attorneys, our firm has obtained millions of dollars on behalf of thousands of individuals in California.

17 dozen active class action and representative PAGA matters currently pending in various courts
18 throughout the State of California.

19 8. The Settlement was reached as a result of arms-length negotiations. Though
20 cordial and professional, the settlement negotiations have been, at all times, adversarial and non-
21 collusive. Counsel for the Parties conducted extensive arm's length settlement negotiations until the
22 parties ultimately reached agreement on the major terms of a settlement. The terms of the Settlement
23 are memorialized in the Settlement Agreement.

24 9. Plaintiffs believe in the merits of their case, but also recognize the inherent risks
25 of litigation and understand the benefit of the Class receiving settlement funds immediately as opposed
26 to risking continued litigation in achieving class certification, the merits of the case before and after
27 trial, the damages awarded, and/or an appeal that can take years to litigate. The Settlement was reached
28 as a result of arms-length negotiations. Though cordial and professional, the settlement negotiations

1 have been, at all times, adversarial and non-collusive. Counsel for the Parties conducted extensive arm's
2 length settlement negotiations until the parties ultimately reached agreement on the major terms of a
3 settlement. The terms of the Settlement are memorialized in the Settlement Agreement.

4 10. The proposed settlement is the product of serious, informed, non-collusive
5 negotiations, has no obvious defects, does not improperly grant preferential treatment to class
6 representatives or segments of the class and falls within the range of fair and reasonable settlements. I
7 believe that this non-reversionary settlement is in the best interests of the class as fair, reasonable, and
8 adequate. Therefore, I recommend approval of the settlement.

9 11. The Settlement calls for the payment of up to \$230,643 for attorneys' fees. This
10 request is fair, reasonable, and adequate to compensate class counsel for the substantial work they have
11 put into this case and, moreover, the risk they assumed by taking it in the first place. I have practiced
12 law in California since December of 2004, with the vast majority of my time focused solely on the
13 prosecution of employment and wage and hour class action litigation. I am aware that the common and
14 acceptable rate for contingency representation in wage-and-hour class action litigation is normally 40%
15 before trial, with the range being from 33.3% up to 50%.

16 12. The attorney fee award is intended to reimburse class counsel for all
17 uncompensated work that they have already done and for all the work they will continue to do in
18 carrying out and overseeing the notification to the Class Members, communicating with Class Members
19 regarding the proposed settlement, and administering the settlement if it is preliminarily approved.

20 13. Class counsel took this case on a contingent-fee basis against a business
21 represented by a reputable defense firm. When we take contingent cases, we must pay careful attention
22 to the economics involved. Accordingly, when we take contingent cases, we anticipate that we shall, if
23 successful, receive a fee that exceeds our normal hourly rate; otherwise, the risk is often too great to
24 bear. Even when we work long hours, the number of hours in a day is limited. Because of this, when
25 we take on one particular matter, we are unable to take on other matters. When Class Counsel became
26 involved in this case, we realized the time commitment that it would entail, and we were forced to turn
27 down matters that we otherwise could have handled. We were forced to do so because of the thorough
28

1 factual investigation and development this case required. In sum, this case claimed a significant portion
2 of class counsel's time and attention throughout its pendency.

3 14. The requested fee is reasonable for the services provided to Class Members and
4 for the benefits they will receive.

5 I declare under penalty of perjury under the laws of the State of California that the foregoing is
6 true and correct.

7 Executed this 12th day of July, 2020, at Pasadena, California.
