Case No. **8:20-cv-02440-DOC-DFM**

**DECLARATION OF JOSE JAUREGUI
IN SUPPORT OF MOTION FOR
FINAL APPROVAL OF CLASS
ACTION SETTLEMENT**

Hearing Date: April 25, 2022

Hearing Time: 8:30 a.m.

District Judge: Hon. David O. Carter
Ronald Reagan Federal Building and
United States Courthouse
Courtroom 9D

1 I, Jose Jauregui, declare as follows:

2 1. I am over the age of eighteen, a Plaintiff and a Class Representative in the
3 above-entitled matter. I submit this declaration in support of the Motion for Final Approval of
4 Class Action Settlement and in support of my application for a Class Representative Service
5 Payment.
6

7 2. I have personal knowledge of all the facts stated herein. I could and would competently
8 testify under oath to these facts in court if requested to do so.

9 3. I have worked for Defendants ("Cytec/Solvay") in California since 2007 and I have been
10 classified by Cytec/Solvay as a non-exempt employee during that time period.

11 4. I retained the law firm of Blumenthal Nordrehaug Bhowmik De Blouw LLP, who are
12 experienced in both class action litigation and claims against employers for violations of the
13 California Labor Code. I have no personal relationship or family ties to my attorneys or any
14 officer of the Court. I am not involved in any litigation against another member of the class in
15 this case and my attorneys are not working on my behalf in another capacity other than
16 representing me in this lawsuit.
17

18 5. I decided to file this class action lawsuit for the benefit of myself and other current
19 and former non-exempt employees who worked for Cytec/Solvay and be a class representative
20 because I felt that my legal rights as an employee and others like me were violated. For example,
21 from time to time I earned non-discretionary incentive compensation, such as shift differentials,
22 but this pay was not included into my regular rate for purposes of calculating my correct
23 overtime rate. I was underpaid overtime as a result. Also, I was not paid minimum wages for
24 work done off the clock. This would occur, for example, before my shift started where I was
25 required to submit to a Covid-temperature check and also had to spend time putting on my
26
27

1 personal protective gear such as boots, fire retardant pants, hard hat, safety goggles, mask and
2 gloves. I was also required from time to time to clock out but still work during my meal period.
3 As for rest breaks, I often didn't have time to take one because there was so much work to do. I
4 should have received uninterrupted and duty free meal and rest periods but this was not always
5 the case. Moreover, I was not paid all the meal or rest break premium payments I was entitled to
6 when these violations occurred. I was also required to use my cell phone for work-related issues
7 but was not reimbursed by Cytec/Solvay for the cost associated with using my personal cell
8 phone for work-related issues.
9

10 6. This class action case was filed on October 14, 2020. Before the complaint was filed I
11 spoke to my attorneys several times and discussed how Cytec/Solvay implemented its company
12 policies and procedures. I also assisted my attorneys in their investigation into my claims by
13 providing them documents and answering their questions. I reviewed the complaint before it
14 was filed and after it was filed I was given access to an electronic file sharing program that
15 alerted me via email when important documents were filed so that I could review them and keep
16 up with the developments in the case which I understood was one of my duties as a class
17 representative. I would also call my attorneys from time to time if I had any questions about the
18 case. My attorneys were regularly available when I contacted them.
19

20 7. Even though this action is in the process of settling, I was and remain prepared to
21 perform all the duties of a class representative. I understand that as a class representative I have
22 assumed a fiduciary responsibility to prosecute this class action on behalf of the absent non-
23 exempt employees who worked for Cytec/Solvay during the class period. I have understood that
24 as a fiduciary, I have a duty to prosecute this action for the benefit of the members of the class
25 and surrender any right to compromise the group action for an individual gain.
26

1 8. I understood that being a plaintiff/class representative in this case meant that I
2 was seeking damages not only for myself but also other current and/or former non-exempt
3 employees working for Cytec/Solvay in California. I felt that this group of current and former
4 employees were not aware of their labor law rights and even if they were they would probably be
5 apprehensive about speaking up or even simply because of the time, effort and risk involved in
6 filing a class action lawsuit.
7

8 9. I understood that being a part of this lawsuit involved risks. For example, my
9 attorneys explained to me that if the case went to trial and we lost, I could be held responsible to
10 pay for all or part of the attorney fees and costs paid by Cytec/Solvay to defend this lawsuit.
11 Also, I knew there was a risk that future employers, if they ever found out about this lawsuit,
12 could hold it against me or downgrade me as a potential hire. As one of the two named Plaintiffs
13 in this case it would not be difficult for a future employer to figure out I sued a former employer
14 for labor law violations. I also knew there was a chance I might get treated differently at work
15 since I decided to file suit against Cytec/Solvay while being a current employee. Indeed, while I
16 did not notice much, if any, negative treatment by the company while this case was ongoing, I
17 did notice being treated differently around the time I signed the settlement agreement. While it is
18 my hope that in the future I am not treated differently by the company because I sued them for
19 labor law violations, the fact that I did sue them and continue to work for the company does
20 cause me some stress and anxiety that the lawsuit could be held against me in the future.
21 Ultimately I decided these risks were worth it and decided to fight for my rights and the rights of
22 others regardless of the risks, time and effort I spent on this case.
23
24

25 10. During the lawsuit I stayed in touch with my attorneys by phone and email. I also
26 kept up to date on important developments by reviewing court filings that were made available to
27

me electronically as I described above.

11. A mediation took place on May 12, 2021 with Lou Marlin, an experienced mediator of wage and hour class actions. Following the all-day mediation session, the parties agreed to settle the action based on a mediator's proposal. I spoke with my attorneys regarding the terms of the settlement which was reached between the parties and understood that I was representing absent class members and therefore wanted the best possible result to be obtained for the class and I believe a very positive result was in fact achieved via settlement. I reviewed and signed the Memorandum of Understanding on May 13, 2021 and when the final settlement papers were ready, I again spoke with my attorneys to review the Settlement Agreement which I signed on July 16, 2021.

12. I have been actively involved with this class action lawsuit performing the duties described above. Although I did not keep time records, I was in regular contact with my attorneys, reviewed important court filings and spent a significant amount of time on the issues presented during the lawsuit and in the settlement process. I estimate that I spent approximately 50-60 hours working on this case. I believe I have been diligent and have done what is expected of a named plaintiff and class representative to date, and will continue to do so. I have and always will maintain the best interest of the class.

13. My attorneys explained to me that the settlement process involves a two-step review by the Court to determine whether the settlement is fair before approving the settlement. I know this process also involves notifying all class members of the settlement terms and of their rights to make a claim for their settlement share, to opt out of the settlement or to object to the settlement.

14. I believe I did the right thing by filing this case on behalf of the class who are in

1 line to receive monetary payments as a result of this case and settlement. I also believe that the
2 requested Class Representative Service Payment of \$10,000 from the settlement is fair
3 compensation for the work I performed and the risks I undertook.

4
5 15. As part of the settlement it was necessary for me to sign a general release of all
6 claims I may have against the Cytec/Solvay. I believe the Class Representative Service Payment
7 I have requested provides me with some compensation for this agreed release.

8 16. I have not entered into any undisclosed agreements nor have I received any
9 undisclosed compensation in this case. The only compensation I will receive is whatever amount
10 the Court awards as a service payment, as well as my share as a class member of the settlement
11 fund.

12
13 17. In light of all the time and effort I have spent on this case, the risk I undertook by
14 suing a current employer, the exposure to being responsible for paying Cytec/Solvay's costs in
15 the event we did not win the case, the reputational risk that future employers may hold this
16 lawsuit against me, the general release, and in light of the size of the settlement, I believe the
17 request for \$10,000 as a Class Representative service payment is fair and reasonable.

18 I declare under penalty of perjury under the laws of the State of California that the
19 foregoing is true and correct.
