15 Attorneys for Plaintiff Samuel Aguirre
16 and Proposed Class Counsel

1 I, ADRIANA MUNOZ, hereby declare and state as follows:

2 1. I am the named Plaintiff in this lawsuit against Defendant Sonoco Plastics, Inc. and
3 Peninsula Packaging (together, "Defendants") and I submit this declaration in support of
4 Plaintiffs' Unopposed Motion for Preliminary Approval of Class Action Settlement. I am a
5 competent adult and worked for Defendants as a non-exempt employee in Tulare County during
6 the relevant time period. I have personal knowledge of the facts set forth herein, and if called as
7 a witness to testify to them, I could and would do so competently.

8 2. I contacted my current attorneys when I questioned the employment practices of
9 Defendants prior to commencing this lawsuit. I accepted the opportunity to act as a Class
10 Representative in a class action on behalf of other employees of Defendants whom I believed were
11 being subjected to labor law violations. Although presented with the opportunity, I did not pursue
12 this case on an individual basis and instead did so as a class action so that I could help other
13 employees recover for what I believed were Defendants' illegal practices.

14 3. Specifically, I questioned Defendants' policies of failing to pay all wages; failing to
15 provide all meal and rest periods; failing to timely compensate employees upon separation; and
16 issuing their employees deficient wage statements. Through many discussions with my lawyers,
17 I learned these may be illegal practices and Defendant's employees might have recourse for them.

18 4. By bringing this lawsuit, and throughout its course, I have put the interests of the
19 class ahead of my own. I understood that I could possibly earn a small enhancement payment if
20 this case resolved itself favorably, but always knew that I could also be responsible for paying
21 Defendants' attorneys' fees and costs if it did not. My goal in bringing this lawsuit was to obtain
22 a recovery on behalf of the class, and even more importantly, to put an end to what I believed were
23 illegal practices on the part of Defendants. I believe I have achieved both through this lawsuit and
24 settlement.

1 5. I am very happy about the results of this litigation. I am satisfied that Defendants
2 are compensating class members for unpaid wages, unpaid gratuities, premium wages for missed
3 meal and rest periods, penalties, and interest that I believe we are due.

4 6. At the onset of this case, I spent time through numerous phone calls with several of
5 my attorneys explaining what I understood to be the policies and procedures of Defendants and
6 how they were applied to me and others I worked with. During the course of this litigation, up
7 through and following the settlement process, I kept actively involved with its status, tracking the
8 status of the case and participating as much as possible.

9 7. While I have not maintained detailed time records of my activities in connection
10 with this litigation, I believe that have spent and will spend a total of approximately 25 hours
11 assisting my attorneys with the preparation of this case, and doing work and analysis independent
12 from my attorneys both before and during this case, including conducting an independent
13 investigation of the facts and attending a full-day mediation.

14 8. Before this litigation commenced, and throughout its course, I have spent
15 approximately 12.5 or more hours gathering, organizing, and reviewing documents and
16 information for this lawsuit. I sifted through many of my own documents and reviewed
17 information produced by Defendants as part of this case.

18 9. I have communicated with my attorneys several times per month to track my case's
19 status. I have taken an active involvement in this matter throughout its course.

20 10. This lawsuit will almost certainly result in reputational harm to me. There is a
21 stigma associated with suing anyone, let alone your former employer. I will probably be adversely
22 affected when it comes to obtaining future employment – employers who learn that I sued
23 Defendants in a class action will likely avoid hiring me.

24 11. I do not believe that I have any conflicts with other members of the class. My
25 interests in bringing this lawsuit – for Defendants to change their labor practices going forward
26 and to compensate current and former employees – are the same as those of all other class
27 members.

1 I declare, under penalty of perjury, under the laws of the State of California that the
2 foregoing is true and correct.

3 Executed on August 31, 2023 at Visalia, California.
