1. I have personal knowledge of the facts set forth in this declaration and could and would competently testify to them under oath if called as a witness.
2. I am the proposed class representative in this action and submit this declaration in support of Plaintiff's Motion for Preliminary Approval of Class Action Settlement. I believe I have provided invaluable assistance during the course of this case, and I respectfully hope the Court will approve my request of a \$10,000 service payment for my role as the Class Representative.
3. I am a former employee of Defendant Newport Fab, LLC. I worked for Defendant from approximately May 22, 2017 to approximately February 10, 2022 as an hourly-paid, non-exempt employee. Throughout the entirety of my employment, I was subject to Defendant's patterns and practices that have been alleged as unlawful in the Class Action Complaint and Private Attorneys General Action Notice sent to Defendant and the Labor & Workforce Development Agency.
4. I have pursued this lawsuit because I was concerned that I was not paid properly for all the hours that I worked, and I was not provided all my meal and rest breaks. While working for Defendant, my coworkers and I were asked to work long hours because of the amount of work, sometimes without taking meal and rest breaks. My meal and rest breaks were often interrupted by supervisors and co-workers asking me to perform work tasks. I frequently performed work tasks while off-the-clock before the start of my shift and after the end of my shift. I also observed my co-workers working long hours without taking breaks. I was not reimbursed for necessary business-related expenses.
5. By participating in this lawsuit as a proposed Class Representative, I hoped that I might be able to change Defendant's practices to better protect the working conditions of my co-workers. I also understood it was my duty as the Class Representative to represent the best interests of the class, know about the lawsuit, help my attorneys, and keep updated on the case.
6. Prior to commencing this case, I provided Wilshire Law Firm with a detailed account of the facts related to my employment with Defendant. Based on our conversations, my attorneys and I were able to identify instances when I was not paid correctly.

1 7. I have invested a lot of personal time and energy while this lawsuit has been pending.
2 I made it a priority to be actively involved because I wanted to do everything I could to help my
3 attorneys in prosecuting this case. I regularly communicated with my attorneys to discuss updates on
4 the case and to provide information. I communicated with my attorneys via phone calls. Some of
5 these phone calls lasted up to 30 minutes.

6 8. I made myself available during the mediation for this case, and I kept in regular
7 contact with my attorneys before and after the mediation to ensure that any questions the attorneys
8 had could be answered.

9 9. I also reviewed pleadings filed in this case, including the settlement-related
10 documents.

11 10. I believe the settlement is a good settlement, and I would recommend that the Court
12 approve it, because I believe it is fair, adequate, and reasonable. I am glad that I have had the
13 opportunity to represent the Class in this lawsuit, and that I was able to recover money through a
14 settlement for the Class. I have also observed my attorneys' work throughout this case, and I believe
15 they have been thorough, diligent, prompt, courteous, and professional.

16 11. Standing up for myself and the rights of others was not an easy decision, and I am
17 relieved that this is coming to an end. I estimate that I spent at least 45 hours on this case.

18 12. I did not make the decision to file a class action lightly. I was concerned by the
19 attention a publicly filed lawsuit, and especially a class action, would attract. My name would be
20 associated with a lawsuit that I filed against my former employer. I was aware that it is possible to
21 perform background checks of publicly filed documents on the Internet, sometimes with nothing
22 more than a simple Google search. I am mindful that employers might find out that I sued a former
23 employer, and this could hurt my employability.

24 13. I respectfully ask that the Court award me a \$10,000 service payment. I am receiving
25 no additional compensation other than the compensation provided for in the settlement. Based on
26 my involvement in this case and the benefits provided to my former co-workers, I can say I helped
27 stand up for the other workers who may have been too afraid to say anything to management because
28 they did not want to risk losing their jobs or risk the stigma of suing an employer. I was not afraid

1 to take that risk, because I strongly care about helping my current and former co-workers. I also
2 continue to fear that any employer may find out that I participated in this lawsuit and hold it against
3 me. In a competitive job market, this factor may weigh heavily against me. Nevertheless, I felt that
4 important rights were at stake that hurt myself and other employees.

5 I declare under penalty of perjury under the laws of the State of California that the
6 foregoing is true and correct.

7 Executed on the 20th day of May 2024, at Long Beach, California.
