I, Mehrdad Bokhour, say and declare as follows:

1. I am an attorney at law, duly licensed to practice before all the Courts of the State of California and I am the principal of Bokhour Law Group, P.C., co-counsel with Brian J. Mankin and Peter J. Carlson of Lauby, Mankin & Lauby, LLP as attorneys of record for Plaintiff Edgar Hernandez (“Plaintiff”) and the Settlement Class.

2. As such, I am familiar with the file in this matter, and if called as a witness, I could and would competently testify to the following facts of my own personal knowledge.

9

3. I graduated with a Bachelor of Arts with a major in Political Science from the University of California, Berkeley, in 2007. I received my J.D. from Loyola Law School—Los Angeles in 2012 and became a member of the California State Bar in December 2012.

4. Before beginning my legal career, I served as a judicial extern for the Honorable Justice Fred Woods of the Second District Court of Appeal. I was also an appellate law clerk at Greines, Martin, Stein & Richland LLP.

5. I have been a member, in good standing, of the State Bar of California since 2012. I am admitted to practice before all California state courts, the U.S. Court of Appeals for the Ninth Circuit Court, the U.S. District Court for the Central District of California, Eastern District of California, Northern District of California, and Southern District of California and have litigated class action and Private Attorneys General Act (“PAGA”) representative action cases in various courts in California.

6. I have handled approximately 150 employment litigation matters during my eleven years in practice. Over the last eight years, my practice has exclusively represented employees, most of which included class action and representative action wage and hour matters. Various courts have appointed me as class counsel and received final court approval and judgment in numerous class actions. I anticipate receiving final approval for many more in the future.

7. As part of these settlements and judgments, I have recovered at least 50 million dollars in damages for my clients and the class members (who often work as essential workers,

nurses, technicians, warehouse workers, truck drivers, sales, and countless other trades).

8. I was selected as a “Super Lawyer Rising Star” in Employment Litigation during the years 2017 through 2022 and as a “Super Lawyer” in 2023-2024, a distinction that is reserved for the top 2.5% of lawyers in the practice area.

9. I have also been recognized by TopVerdicts.com for achieving several of the top wage and hour class and PAGA action settlements in California.

10. I am an active member of the California Employment Lawyers Association (“CELA”) and have attended numerous Continuing Legal Education courses pertaining to advocacy on behalf of employees.

11. My firm has the experience, resources, and means necessary to allow us to provide adequate representation to all Settlement Class Members in this Action.

12. Currently, my firm is acting as counsel in at least twenty-five wage-and-hour class actions and co-counsel in at least thirty others.

13. Class Counsel are respected members of the California Bar with strong records of vigorous and effective advocacy of their clients, and they are experienced in handling complex class action litigation. Both Class Counsel and Plaintiff were prepared to litigate the claims in this action, but they strongly and unequivocally support the proposed Settlement as being in the best interest of the Settlement Class based on the circumstances referenced herein.

14. My current billing rate is \$650 per hour, which is also usual and customary for class action practitioners with my experience and expertise. Moreover, my rate has been approved by various courts in California, including the following non-exhaustive list of recent settlements for which I have been the handling attorney with a lodestar cross-check of \$550- \$650 per hour:

4 15. In the opinion of Class Counsel, the recovery for each Settlement Class Member
5 is well within the acceptable range for this type of action. This Settlement is also favorable
6 given that the Settlement Class will promptly receive compensation rather than facing
7 uncertainties inherent in further litigation and waiting years for this action to be tried. It also
8 tells that the Settlement Class has overwhelmingly supported the Settlement on the terms
9 outlined in the Settlement Agreement. No Settlement Class Member has objected to the class-
10 wide Settlement obtained in this matter, and no Settlement Class Member requested exclusion
11 from the Settlement. Based on all considerations, this Settlement is highly favorable and is in
12 the best interests of the Settlement Class.

13 16. In sum, all relevant factors support final approval of the Settlement. The parties
14 negotiated at arm's length under the supervision of an experienced and well-respected mediator.
15 Class Counsel also investigated, discovered, and analyzed class claims extensively. Moreover,
16 Class Counsel, who is an experienced class action litigator, strongly believes that this
17 Settlement provides an excellent result for the Settlement Class. Lastly, the fact that there were
18 no objections filed that asked for final approval to be denied and zero requests for exclusion
19 from the Settlement weighs strongly in favor of approval of the Settlement. For these reasons,
20 this Court should conclude that under the circumstances of this case, the proposed Settlement
21 is fair, adequate, and well within the range of reasonableness.

22 **The Proposed Enhancement Award to Plaintiff as Class Representative is Reasonable**

23 17. Plaintiff and Class Counsel request that the Court finally approve a Class
24 Representative Service Payment of \$10,000 for the time, effort, and risks he undertook in
25 participating in this Action. Because a named plaintiff is an essential ingredient of any class
26 action, a service payment is appropriate to induce individuals to step forward and assume the
27 burdens and obligations of representing the settlement class. In deciding the amount of service
28 payment for a class representative, relevant factors include the actions the plaintiff has taken to

1 protect the interests of the settlement class, the degree to which the settlement class has
2 benefitted from those actions, and the amount of time and effort the plaintiff expended in
3 pursuing the action.

4 18. In the instant case, Plaintiff Edgar Hernandez assisted Class Counsel on many
5 occasions with investigating and prosecuting this action. Plaintiff provided many documents
6 and relevant information to Class Counsel, spent numerous hours educating Class Counsel on
7 the inner workings of Defendant's operations and timekeeping practices, and made himself
8 available for mediation. The amount sought for the Class Representative aligns with the service
9 payments in similar wage and hour class actions. In Class Counsel's experience, service
10 payments in wage and hour actions typically range from \$5,000 to \$40,000. Further, Defendant
11 supports the requested Class Representative Service Payment of \$10,000 to Plaintiff. As such,
12 the requested service payment is intended to compensate Plaintiff for her critical role in this
13 case and the substantial time, effort, and risk he undertook to help secure the result obtained on
14 behalf of the Settlement Class. The Class Representative Service Payment requested is well
15 deserved and warranted. Furthermore, Plaintiff has also provided Defendant with a general
16 release of her claims in exchange for the service payment requested.

17 **The Requested Attorneys' Fees and Costs are Fair, Reasonable, and Appropriate**

18 19. Class Counsel's application for an award of Attorneys' Fees in an amount of
19 approximately 33.33% of the Settlement Amount on behalf of the Settlement Class is reasonable
20 and fair. The requested fee falls on the lower end of the benchmark for attorneys' fees of 25%
21 to 40% of a common fund and is fair compensation for undertaking complex, risky, expensive,
22 and time-consuming litigation on a contingent basis.

23 20. For Class Counsel, the fees here were wholly contingent in nature, and the case
24 presented far more risk than the usual contingent fee case. There was the prospect of the
25 enormous cost inherent in class action litigation and a long battle with a corporate Defendant.
26 That prospect has previously become a reality in trial courts and the Court of Appeal in other
27 wage and hour class litigations. Class Counsel risked not only a great deal of time but also a
28 great deal of expense to ensure the successful litigation of this action on behalf of all Settlement

Class Members. Based upon the foregoing, Class Counsel respectfully requests that the Court award attorneys' fees in the amount of \$433,333.33.

21. Class Counsel will collectively work approximately 404.3 hours on this case. Class Counsel's hourly rate, in this case for Mehrdad Bokhour, is \$650 per hour. My firm's and my co-counsel's hours are set forth below:

Attorney	Experience	Rate per Hour	Hours	Total Lodestar
Mehrdad Bokhour	12 years	\$650	72.5 ¹	\$47,125
Brian Mankin	23 years	\$775	121	\$93,775
Peter Carlson	9 years	\$650	210.8	\$137,020
Total Lodestar				\$277,920

22. The ultimate result was far from certain when this case was taken on a contingency fee basis, with the firm agreeing to assume responsibility for all litigation costs. In the course of this Action, Class Counsel paid all costs, including filing fees, court costs, research fees, and mediation costs. There was never a guarantee that we would recoup those expenditures.

23. It has been my experience that the benchmark for an attorney fee award in California state cases is one-third of a common settlement fund, which the California Supreme Court recently upheld in the *Robert Half* case. Here, in accordance with the Settlement Agreement, Class Counsel is seeking a fee of \$433,333.33, one-third of the Settlement Amount.

24. The fee is warranted because of the results achieved for the Settlement Class Members, both in terms of the immediate cash settlement and that the Settlement Class Members resoundingly supported the Settlement. Defendant does not oppose this fee request.

25. The following are the itemized litigation costs (actually incurred) for the above-referenced matter:

- Mediation \$4,500

26. The proposed settlement has been previously submitted in accordance with Labor Code § 2699(1)(2) to the Labor and Workforce Development Agency.

¹ Includes an estimated 10-15 hours of work finalizing this motion, attending final approval, working with Defense Counsel and the Administrator finalizing this matter, submitting a declaration of disbursement, and other ancillary matters.

1 27. The proposed Settlement here was the product of arm's-length negotiation before
2 a highly experienced and reputable class action mediator, Todd Smith, Esq., to reach a settlement.

3 28. Plaintiff and Class Counsel have diligently investigated the claims raised in this
4 litigation and, after taking into account the disputed factual and legal issues involved in this
5 action, the risks attending further prosecution, and the benefits to be received pursuant to the
6 compromise and settlement of the Action as set forth in the Settlement, concluded that the
7 Settlement terms are fair, reasonable, and in the best interest of the Settlement Class.

8 29. As the Settlement Agreement reveals, there is no preferential treatment for any
9 segment of the Settlement Class, as the Settlement is designed to fairly and adequately
10 compensate all Settlement Class Members. Pursuant to California Rules of Court Rule 3.769(b),
11 the parties have disclosed the agreed upon and proposed Attorneys' Fees, which are well within
12 the range of reasonableness for matters of this nature.

13 30. As set forth at the time of preliminary approval, Class Counsels' investigation into
14 the facts and merits of the wage and hour claims alleged included analyzing substantial amounts
15 of information, correspondence, documents, timekeeping and pay data, policies and procedures,
16 and evidence relating to the class size and the commonality of the claims. During this process,
17 Plaintiff and Class Counsel investigated the potential claims of the similarly situated employees
18 and researched and investigated Defendant's defenses. Finally, Class Counsel synthesized and
19 analyzed information provided by Defendant regarding the total Settlement Class Members, the
20 number of current and former employees, and the number of employees who worked during
21 various time periods and prepared comprehensive damages calculations regarding the wage and
22 hour claims at issue.

23 31. In light of the uncertainties of protracted litigation, this negotiated Settlement
24 reflects the best practicable recovery for the Settlement Class. While the total Settlement amount
25 is, of course, a compromise figure, the potential risks and opportunities of both parties were
26 effectively weighed and considered by the parties, resulting in a fair and equitable Settlement.
27 Based upon detailed data obtained through discovery and information exchanges and factoring in
28 class certification probabilities and liability probabilities, Class Counsel formulated detailed

1 damages models to evaluate the claims in preparation for mediation and to reach a realistic and
2 reasonable resolution. Of course, Defendant denies that any damages should be assessed and
3 denies all of the value assessed by Plaintiff.

4 32. Moreover, as further detailed in the Plaintiff's Motion for Preliminary Approval
5 of Class Action Settlement, the Defendant strongly disputed the merits of the case and the
6 damages on several grounds.

7 33. The Settlement should be approved, and judgment entered based on the
8 determination that the Settlement is fair, reasonable, adequate, and in the best interests of the
9 Settlement Class.

10 I declare under penalty of perjury under the laws of the state of California that the
11 foregoing is true and correct this 28th day of February 2024, at Los Angeles, California.
