I, Antonio Rosillo, declare as follows:

1. I am over 18 years of age and am one of the named Plaintiffs in this lawsuit. I am familiar with and have personal knowledge of the facts set forth in this Declaration.

2. I submit this Declaration in support of the Motion for Preliminary Approval of Class Action and PAGA Settlement filed in my case. If called as a witness, I would competently testify honestly to the below facts based on my personal knowledge.

3. From September 2022 through August 2023, I was employed by Defendant Brody Heating, Air Conditioning & Electrical Contractors, LLC ("Defendant") as an HVAC Service Technician. I was paid as an hourly wage employee.

4. During my employment, I became familiar with Defendant's employment practices, which led me to identify payment issues that I alleged in the complaints filed by my lawyers with the Court.

5. As a result, I searched for an employment lawyer to take legal action on behalf of myself and my coworkers.

6. My intent was to find a lawyer to correct some of the payment and timekeeping practices occurring at Brody Heating, Air Conditioning & Electrical Contractors.

7. I came across Ferraro Vega Employment Lawyers. Mr. Ferraro, Ms. Vega, and their law firm agreed to take my case and move forward on a class action basis. They accepted my case on a contingency fee basis.

8. Prior to filing the case, I have spoken at length with my attorneys and their staff, provided documents and records in my possession, signed authorizations so that my attorneys could request additional employment and payroll records, and provided my attorneys with contacts and witnesses to speak to.

9. Before we filed the case, my lawyers conducted significant investigation—reviewing my employment and payroll records and going over in detail specific examples of wrongful conduct I alleged in the complaints.

10. I filed this lawsuit on April 30, 2024, and have stayed involved since then by reviewing policies and documents, emailing, texting, and calling my lawyers, and responding to their questions as needed.

11. I enjoyed working with my legal counsel and am satisfied that we were able to come to a resolution.

12. My lawyers advised me when I filed this case that it could take a long time and that I would be better off individually bringing and settling my own individual action, but I elected to go with the class action option because it allowed for relief, recovery, and change to policies and practices in a way that an individual lawsuit alone probably could not have accomplished.

13. I think that the total settlement of $395,000, where individuals are going to passively receive compensation, is significant. It is something I am proud of. I am aware that no other employees have taken action to bring this case and that this case was the catalyst for recovery to class members.

14. Although I am proud to have my name on this lawsuit for the benefit of my coworkers, this lawsuit has caused difficulty and stress in my personal and professional life. For example, the public nature of this lawsuit—and potential employers' potential misconception of the lawsuit—caused me concern with how it might affect my employment prospects.

15. When I decided to file this lawsuit, I was aware that this action is public record. I understood that the lawsuit could continue for several years and would require my participation, attention, and determination the entire time. I was made aware that I could become responsible for some or all of my former employer's legal costs if the case did not conclude successfully (though my lawyers advised me this risk was ultimately low because I was bringing the claims based on strong facts and in good faith). Despite these risks, I decided to serve as one of the proposed class representatives and one of the named Plaintiffs.

16. Even though my lawyers tell me I likely could have a settlement on an individual basis, this would not have been fair to my coworkers. After more than a year of litigation, I feel good about seeing the case through and bringing it to a final close.

17. I spent many hours working on this case before and after it was filed. I provided my attorneys with information related to Defendant's policies and practices. I gathered documents related to my case and reviewed the documents provided by Defendant in discovery and in advance of mediation. I provided information that would have been used in my discovery responses. I reviewed information

and documents produced by Defendant, helped with my declaration in support of this action, and frequently communicated with my attorneys by telephone, text message, and email to provide insight and perspective on this case.

18. I spoke with my attorneys and provided questions to be asked of Defendant for documents and information related to this case. I made myself available for mediation, and throughout this lawsuit, and I regularly contacted my lawyers for updates and to answer their questions.

19. I understand that I may be entitled to an additional payment for acting as a class representative, and that this payment is subject to Court approval. Considering the time I devoted to this case, the concerns I address above, the risks, and the results achieved through the settlement, I believe that the requested service payment where each Plaintiff will receive $7,500 is reasonable.

20. It is hard to determine exactly how much time I spent on this case. Some weeks required much more time than others, such as during the pre-lawsuit investigation and discovery, and the lead up to the mediation. I spent a considerable amount of time working on my case, during my personal and family time outside of work hours, and I spent even more time thinking about this case. I am glad it has come to a successful conclusion.

I declare under penalty of perjury under the laws of the State of California and the United States of America that the foregoing is true and correct. Executed on 11/09/2026, in Manteca, California.
