Attorneys for Plaintiff SALOMON PONCE MARTINEZ

SUPERIOR COURT OF THE STATE OF CALIFORNIA

COUNTY OF LOS ANGELES

SALOMON PONCE MARTINEZ, individually,
and on behalf of all others similarly situated,

Plaintiff,

vs.

IMMACULATE FLIGHT, LLC, *et al.*,

Defendants.

Case No.: 24STCV19993

[Hon. Timothy Patrick Dillon]

**PLAINTIFF'S NOTICE OF MOTION AND
MOTION FOR PRELIMINARY APPROVAL
OF CLASS AND REPRESENTATIVE
ACTION SETTLEMENT; MEMORANDUM
OF POINTS AND AUTHORITIES**

Date: January 21, 2026
Time: 10:00 a.m.
Courtroom: Dept. 14
Judge: Hon. Timothy Patrick Dillon

Action Filed: August 10, 2023
Trial Date: Not Set

1 TO THE COURT, ALL PARTIES, AND THEIR COUNSEL OF RECORD:

2 PLEASE TAKE NOTICE that on January 21, 2026, at 10:00 a.m., or as soon thereafter as may
3 be heard, in Department 14 of the above-captioned Court, located at 312 N. Spring St., Los Angeles, CA
4 90012, Plaintiff SALOMON PONCE MARTINEZ (“Plaintiff”) will and hereby does move this Court
5 for an order:

6 1. Granting class certification of the Class, solely for settlement purposes pursuant to
7 Code of Civil Procedure § 382;

8 2. Preliminarily approving the CLASS ACTION AND PAGA SETTLEMENT
9 AGREEMENT AND CLASS NOTICE (“Settlement” or “Agreement”);

10 3. Appointing counsel for Plaintiff, Moon Law Group, PC, as Class Counsel;

11 4. Appointing Plaintiff as the Class Representative;

12 5. Approving the use of the proposed notice procedure and related notice form;

13 6. Approving PHOENIX SETTLEMENT ADMINISTRATORS as the third-party
14 administrator;

15 7. Directing that notice be mailed to the Class; and,

16 8. Scheduling a hearing date for motions for final approval of class action settlement
17 and awards of attorneys’ fees and costs.

18 Good cause exists to grant this Motion because: (1) the Class meets all of the requirements for
19 class certification for settlement purposes under Code of Civil Procedure § 382; (2) the Settlement
20 Agreement is a fair, adequate, and reasonable compromise of the disputed wage and hour claims asserted
21 by Plaintiff; (3) Plaintiff and Class Counsel are adequate to represent the Class; (4) the proposed notice
22 procedures and related forms comply with California Rules of Court 3.766(d) and (e), adequately apprise
23 Class Members of their rights, and fully comport with due process; and, (5) based on the foregoing,
24 notice should be directed to the Class Members and a final fairness hearing should be scheduled (Plaintiff
25 suggests about 140 days after preliminary approval is granted).

26 This Motion is made pursuant to Rule 3.769 and Rule 3.1113(e) of the California Rules of Court,
27 which require approval by the Court of a class action settlement and permit the Court to extend the page
28 limit for memoranda.

1 This Motion is based on this Notice of Motion and Motion, the attached Memorandum of Points
2 and Authorities, the Declarations of H. Scott Leviant, Plaintiff, and the Settlement Administrator in
3 support thereof, all papers and pleadings on file with the Court in this action, all matters judicially
4 noticeable, and on such oral and documentary evidence as may be presented in connection with the
5 hearing on the Motion.

6 Respectfully submitted,

7 Dated: December 11, 2025

Class Certification in California: SECOND INTERIM REPORT FROM THE STUDY OF CALIFORNIA CLASS ACTION LITIGATION - FEBRUARY 2010	17
--	----

1 **I. INTRODUCTION**

2 Pursuant to California Rules of Court, Rules 3.769, Plaintiff requests that this Court preliminarily
3 approve the class action settlement set forth in the CLASS ACTION AND PAGA SETTLEMENT
4 AGREEMENT AND CLASS NOTICE (“Agreement”; “Settlement” describes the proposed disposition
5 of the Action effected by the Agreement and the Judgment) with IMMACULATE FLIGHT, LLC
6 (“Defendant”).

7 After the exchange of documents and data, and an arm’s-length mediation session with mediator
8 Steven Rottman, Esq., Plaintiff and Defendant (collectively referred to herein as the “Parties”) reached a
9 proposed class action settlement with a gross settlement amount (“GSA”) of **\$280,000.00** in compromise
10 of disputed claims asserted on behalf of the below-defined Class consisting of approximately **206**
11 members. Plaintiff believes this settlement is a fair, adequate, and reasonable compromise of disputed
12 claims for alleged wage and hour violations and penalties asserted in this case.

13 Plaintiff now submits this Motion for Preliminary Approval of Class Action Settlement, along
14 with the Settlement (attached to the Declaration of H. Scott Leviant [“Leviant Decl.”], Exhibit 1 thereto).
15 For the Court’s convenience, below is a summary of the key provisions of the Settlement.

16 **II. THE MAJOR TERMS OF SETTLEMENT**

17 The provisions of the proposed Settlement include the following:

- 18 • Defendant agrees not to oppose certification for purposes of Settlement. (Agreement, ¶
19 12.1.)
- 20 • Class: All current and former non-exempt employees who were employed by Defendant
21 in California at any time during the Class Period (the “Class Period” is the period from
22 August 8, 2020, to the hearing date that the Court grants preliminary approval of the
23 settlement, or 60 days from April 10, 2025, whichever is earlier). “Participating Class
24 Member” means a Class Member who does not submit a valid and timely Request for
25 Exclusion from the Class portion of the Settlement. (Agreement, ¶¶ 1.5, 1.9, 1.12, 1.34.)
- 26 • Settlement Amount: Defendant will pay a maximum of **\$280,000.00**, referred to as the
27 Gross Settlement Amount (or GSA herein), resulting in an estimated average **gross**
28 benefit per Class Member of about **\$1,359.22**. (Agreement, ¶¶ 1.21, 3.1; Leviant Decl., ¶

17.)

- Escalator Clause: If the number of actual Workweeks at the close of the Class Period is more than 10% higher than the estimated Workweeks (i.e., exceeds 9,086 Workweeks), then the Settlement Amount shall increase by \$33.90 (Gross Settlement Amount divided by 8,260) for each additional workweek above it. (Agreement, ¶ 8.)
- Funding of Gross Settlement Amount: Defendant shall fully fund the GSA, and also fund the amounts necessary to fully pay Defendant's share of payroll taxes by transmitting the funds to the Administrator no later than 14 days after Effective Date. (Agreement, ¶ 4.1.)
- Class Size: About **206** individuals who worked about 8,260 workweeks. (Agreement, ¶ 8.)
- PAGA Group Size: About **122** aggrieved employees who worked about 2,447 pay periods during the PAGA Period. (Agreement, ¶ 8.)
- PAGA Period: August 8, 2023, to the hearing date that the Court grants preliminary approval of the settlement, or 60 days from April 10, 2025 (whichever is earlier). (Agreement, ¶ 1.30.)
- Kullar/Munoz Analysis: Plaintiff addresses the claims analysis in the Motion, at Part V.B.3, and below, at Paragraph 18.
- No Reversion: The Settlement is a **non-reversionary** settlement. (Agreement, ¶ 3.1.)
- Certification: Plaintiff addresses certification requisites in the Motion, at Part V.A., and below, at Paragraphs 34-40.
- No Claim Form: No claim form is required. (Agreement, ¶ 3.1.)
- Class Release: The Settlement will release wage-and-hour claims for Participating Class Members, (those Class Members who do not opt out of the Settlement) including all claims that were alleged, or reasonably could have been alleged, based on the facts stated in the Operative Complaint. (Agreement, ¶ 5.2.)
- PAGA Release: The State of California, and anyone purporting to act on its behalf, including Plaintiff, will release the Released Parties from all claims for civil penalties

under PAGA, based on the facts and Labor Code sections that were alleged or reasonably could have been alleged in Plaintiff's PAGA Notice of violations and the Operative Complaint. (Agreement, ¶ 5.3.)

- Net Settlement Amount: The Gross Settlement Amount, less the following payments in the amounts approved by the Court: Individual PAGA Payments, the LWDA PAGA Payment, Class Representative Service Payment, Class Counsel Fees Payment, Class Counsel Litigation Expenses Payment, and the Administration Expenses Payment. The remainder is to be paid to Participating Class Members as Individual Class Payments. The Net Settlement Amount is estimated to be at least **\$133,166.67**, resulting in an average **net** payment per Class Member of at least **\$646.44**, before any tax withholdings. (Leviant Decl., ¶ 11.)
- Tax Allocation: The amounts distributed to Class Members will be characterized as 15% alleged unpaid wages, 85% to interest and penalties, and PAGA Settlement payments to Aggrieved Employees will be allocated as 100% penalties.¹ (Agreement, ¶¶ 3.2.4.1, 3.2.5.2.)
- Employer's Portion of Payroll Taxes Paid Separately: Defendant's portion of payroll taxes (e.g., FICA, FUTA, etc.) owed on any settlement payments to Class Members that constitute wages will be paid *separate* and apart from the GSA.² (Agreement, ¶ 3.1.)
- Settlement Administrator: The notice portion of the Settlement will be administered by a third-party Administrator, Phoenix Settlement Administrators ("Phoenix"), with the costs of administration at a flat rate of up to \$6,500.00. Phoenix's estimate for settlement administration services in the amount of **\$6,500.00** was selected as the lowest bid from a competitive bidding process. (Agreement, ¶ 3.2.3; Lawrence Decl., ¶ 17.)
- Class Data for Administration: The Settlement Administrator will receive the Class Data

¹ Plaintiff's exposure analysis projects 87.74% of the current value of claims to arise from penalties. The allocation between wages and penalties is reasonable.

² The estimated amount of the employer's share of payroll taxes, to be paid separately from the GSA, is \$1,199.83. (Leviant Decl., ¶ 41.)

not later than 15 days after the Court grants Preliminary Approval, use the National Change of Address (“NCOA”) database to update the Class Data, and then use skip tracing on returned Notices. (Agreement, ¶¶ 4.2; 1.10.)

- Notice: The Notice will be issued within 14 days of receipt of the Class Data. (Agreement, ¶ 7.4.2.) The Notice describes how to dispute workweeks, submit an objection in writing, in person, or through an attorney, or request exclusion. (Agreement, ¶¶ 7.5 – 7.7.)
- Notice Language: Notice was issued in English and Spanish. (Agreement, ¶ 1.11; 7.4.2.)
- Objections: Objections can be submitted in person, by attorney, or in writing to the Administrator, with no pre-requisite to being heard. (Agreement, ¶¶ 7.8.1 – 7.8.3.)
- Exclusion Requests: The procedure for exclusion requests, mailing a request to the Settlement Administrator, is the same as the procedure for submitting a written objection. (Agreement, ¶¶ 7.6.1 and 7.8.2.)
- PAGA Allocation: From the GSA, **\$20,000.00** will be allocated to settle claims brought pursuant to the California Private Attorneys General Act, Labor Code § 2699 *et seq.* (“PAGA”), and sixty-five percent (65%), or **\$13,000.00**, will be paid to the California Labor & Workforce Development Agency. (Agreement, ¶ 1.33; 3.2.5.)
- Notice to LWDA: Notice was provided prior to the filing of this Motion. Evidence is attached hereto.
- Enhancement/Service Award to Plaintiff: Defendant will not oppose the application for a Class Representative Service Payment of up to **\$5,000.00** to be paid from the GSA. (Agreement, ¶ 3.2.1.)
- Fees and Costs: Defendant will not oppose Class Counsel’s application for fees of not more than one-third of the GSA (**\$93,333.33**), and actual costs, in an amount not to exceed **\$22,000.00**, to be paid out of the GSA. (Agreement, ¶ 3.2.2.)
- Check Void Period: Settlement checks will be valid for 180 days. (Agreement, ¶ 4.4.1.)
- Uncashed Checks: Any settlement checks that are mailed to the Class Members and remain uncashed after 180 days of the date of issuance will be cancelled, and the moneys

represented by such checks will be sent to the California Controller's Unclaimed Property Fund in the name of the Class Member failing to cash the check. (Agreement, ¶ 4.4.3.)

- Judgment Notice: Judgment will be posted on the Settlement Administrator's website after entry. (Agreement, ¶ 7.8.1.)
- Confidentiality Provisions: The Agreement permits Class Counsel to discuss the Settlement with Class Members. (Agreement ¶ 12.2.)

(Leviant Decl., ¶¶ 11-12 and Exhibit 1 thereto.)

III. FACTUAL AND PROCEDURAL BACKGROUND

A. Plaintiff's Claims

Defendant is a privately owned aircraft cleaning and detailing company. On August 8, 2024, Plaintiff commenced this Action by filing a Complaint alleging causes of action against Defendant for failure to pay wages (minimum and overtime), failure to provide meal periods, failure to authorize and provide rest breaks, failure to timely pay final wages at termination, failure to indemnify for necessary business expenses, failure to provide accurate itemized wage statements, and unfair business practices. (Leviant Decl., ¶ 4.)

Plaintiff sent a letter to the Labor and Workforce Development Agency ("LWDA"), pursuant to California Labor Code § 2699.3, providing notice of her intent to seek civil penalties under the Private Attorneys General Act, California Labor Code § 2698, *et seq.* (Leviant Decl., ¶ 5.) The LWDA did not indicate that it intended to investigate the alleged violations referenced in the letter, and the 65-day time period permitted for the LWDA to provide such a notification expired. (*Id.*) On October 21, 2024, Plaintiff filed a First Amended Complaint alleging an additional cause of action against Defendant for civil penalties under the Private Attorneys General Act ("PAGA"). (*Id.*) The First Amended Complaint is the operative complaint in the Action (the "Operative Complaint."). (*Id.*)

B. Pre-Mediation Data Production and Analysis

The Parties conducted informal discovery and investigation of the facts and law. (Leviant Decl., ¶ 6.) Investigation included, *inter alia*, the exchange of extensive data and discoverable information in preparation for the mediation session. The Parties have analyzed time clock, pay and other data

pertaining to Plaintiff and the Class during the relevant Settlement Period, including but not limited to the numbers of former and current members of the Class, average workweeks and pay periods, and average rate of hourly pay. Time and pay data were used for Plaintiff's pre-mediation analysis. Sampling was used to reduce costs and increase speed of data collection and review. (*Id.*) The margin of error calculation for the sample of the Class in this case is as follows:

$$1.96 \sqrt{\frac{0.5(1-0.5)}{168}} \sqrt{\frac{206-168}{206-1}} = \text{margin of error}^3 = 0.0326 = 3.26\%$$

(*Id.*) With a random sample of data for 168 employees, the margin of error, using the population adjustment factor, was no more than 3.26 percent.⁴ (*Id.*) In addition, Defendant also provided other data pertaining to Plaintiff and the Class during the relevant Class Period, including but not limited documents reflecting wage and hour policies and practices during the Class Period (*e.g.*, the relevant employee handbook). (*Id.*)

After reviewing documents regarding Defendant's wage and hour policies and practices and other information obtained during the exchange of information, and interviewing Settlement Class Members, Class Counsel were able to evaluate the probability of class certification, success on the merits, and the reasonably obtainable maximum monetary exposure for all claims. Class Counsel prepared a damage analysis prior to mediation. Class Counsel also investigated the applicable law regarding the claims and defenses asserted in the litigation. (Leviant Decl., ¶ 7.)

³ The term "1.645" is derived from a standard deviation table for a 90% confidence interval, known as a "z-table." It is not affected by sample or population size. The margin of error is an "overestimate" of the margin of error because the variance is presumed to be at its highest value, using 0.5(1-0.5) to represent p*q in the variance equation of (p*q)/n.

⁴ The margin of error formula does not require an adjustment factor for extremely large populations. (*Id.*) A poll of all potential voters in the United States, for example, does not require an adjustment for the population size, since the second radicand in the equation (the fraction in the second radical sign) is effectively equal to 1. (*Id.*) This is because the square root of a fraction that is very close to 1 is even closer to 1. Consider a population of 200 million and a sample of 1,000 individuals from that population. The second radicand is the fraction of 200 million minus 1,000, all divided by 200 million minus 1. (*Id.*) That is equal to 0.999995. (*Id.*) The square root is 0.99999975, which is indistinguishable from 1 when talking about a margin of error percentage even to the nearest tenth of a percent. (*Id.*) But when the population size is much smaller, the population size has a major impact on the margin of error for a given sample size. (*Id.*)

1 **C. Settlement**

2 On April 10, 2025, the Parties participated in an all-day mediation presided over by Steve
3 Rottman, Esq., which led to this Agreement to settle the Action. The Parties discussed at length the
4 burdens and risks of continuing with the litigation as well as the merits of claims and defenses. After the
5 mediation, and the eventual settlement, the Parties then signed a long form settlement agreement (the
6 “Agreement”). (Leviant Decl., ¶ 8.)

7 Plaintiff and Class Counsel are aware of the burdens of proof necessary to establish liability for
8 the claims asserted in the Action, both generally and in response to Defendant’s defenses thereto.
9 Plaintiff and Class Counsel have also taken into account Defendant’s agreement to enter into a
10 Settlement that confers substantial relief upon the Class. (Leviant Decl., ¶ 9.)

11 Based on the foregoing, Plaintiff and Class Counsel have determined that the settlement set forth
12 in this Agreement is fair, adequate, and reasonable and is in the best interests of the Class. (Leviant Decl.,
13 ¶ 10.) Solely for the purpose of settling this case, the parties agree that the requirements for establishing
14 class action certification with respect to this class have been met and are met. (*Id.*) If this settlement is
15 not approved by the Court for any reason, Defendant reserves the right to contest class certification. (*Id.*)
16 This settlement, if approved, will result in the termination of the litigation through the entry of the
17 Judgment and the release of all Released Claims for all Class Members who have not elected to exclude
18 themselves from the Class. (*Id.*)

19 **IV. CLASS DEFINITION**

20 The Class is defined as follows:

21 All current and former non-exempt employees who were employed by Defendant in
22 California at any time during the Class Period (the “Class Period” is the period from
23 August 8, 2020, to the hearing date that the Court grants preliminary approval of the
24 settlement, or 60 days from April 10, 2025, whichever is earlier). “Participating Class
Member” means a Class Member who does not submit a valid and timely Request for
Exclusion from the Class portion of the Settlement. (Agreement, ¶¶ 1.5, 1.9, 1.12, 1.34.)

25 (Leviant Decl., ¶ 11 and Exhibit 1.)

26 **V. DISCUSSION**

27 **A. The Court Should Conditionally Certify the Class for Settlement Purposes**

28 The Class should be provisionally certified for settlement because: (1) the Class is ascertainable

1 and numerous; (2) there exists a well-defined community of interest; and (3) a class action is the superior
2 method of adjudication for this settlement. Code of Civ. Proc. § 382; *Brinker Rest. Corp. v. Super. Ct.*,
3 53 Cal. 4th 1004, 1021 (2012); *Linder v. Thrifty Oil Co.*, 23 Cal. 4th 429, 435 (2000); *Sav-on Drug*
4 *Stores, Inc. v. Superior Court*, 34 Cal.4th 319, 326, 332 (2004). For purposes of this Settlement *only*,
5 Defendant stipulates to conditional certification. (Settlement ¶ 12.1.)

6 “The certification question is ‘essentially a procedural one that does not ask whether an action is
7 legally or factually meritorious.’” *Id.*, at 326, quoting *Linder*. Indeed, the certification question simply
8 asks whether the theory of recovery advanced by the plaintiff is likely to prove amenable to class
9 treatment. *See, e.g., Jaimez v. Daiohs USA, Inc.*, 181 Cal. App. 4th 1286, 1298 (2010). “[I]t is also well
10 established that trial courts should use different standards to determine the propriety of a settlement class,
11 as opposed to a litigation class certification. Specifically, a lesser standard of scrutiny is used for
12 settlement cases.” *Global Minerals & Metals Corp. v. Superior Court*, 113 Cal. App. 4th 836, 859
13 (2003), citing *Dunk v. Ford Motor Co.* 48 Cal. App. 4th 1794, 1807 n. 19 (1996).

14 In view of these standards, the Class should be certified for purposes of settlement. Code Civ.
15 Proc. § 382; Rules of Court, Rule 3.769(c).

16 **1. The Members of the Class Are Both Ascertainable and Numerous.**

17 Whether an ascertainable class exists turns on three factors: (1) the class definition, (2) the size of
18 the class, and (3) the means of identifying the class members. *See Miller v. Woods*, 148 Cal. App. 3d
19 862, 873 (1983). A class is ascertainable when “it is defined ‘in terms of objective characteristics and
20 common transactional facts’ that make ‘the ultimate identification of class members possible when that
21 identification becomes necessary.’” *Noel v. Thrifty Payless, Inc.*, 7 Cal. 5th 955, 980 (2019). The class
22 definition is sufficiently specific to enable the Parties, Class Members, and the Court to determine the
23 parameters of the class. *See Clothesrigger, Inc. v. GTE Corp.*, 191 Cal. App. 3d 605, 617 (1987). Here,
24 there were about 206 Class Members, all of whom may be identified by reference to Defendant’s
25 records. The Class is not only ascertainable, but also numerous. (Leviant Decl., ¶ 35.)

26 **2. There Are Common Questions That Predominate Over Any Questions That**
27 **May Be Unique to Individual Class Members.**

28 The community of interest requirement embodies three factors: (1) predominant questions of law

1 and fact; (2) class representatives with claims or defenses typical of the class; and (3) class
2 representatives who can adequately represent the class. *Dunk*, 48 Cal. App. 4th at 1806; *Richmond*, 29
3 Cal. 3d at 473-75. A question of law or fact is common to the members of a class if it may be resolved
4 through common proof. *See, Jaimez*, 181 Cal.App.4th at 1305. As for predominance, it “is a comparative
5 concept, and ‘the necessity for class members to individually establish eligibility and damages does not
6 mean individual fact questions predominate.’” *Sav-on*, 34 Cal. 4th at 334.

7 In this case, common questions include, but are not limited to: i. Whether or not Defendant paid
8 proper wages to the Class; ii. Whether or not Defendant provided meal periods to the Class; iii. Whether
9 or not Defendant provided rest periods to the Class; iv. Whether or not Defendant paid compensation
10 timely upon separation of employment to former Class Members; v. whether or not Defendant paid
11 compensation timely throughout Class Members’ employment; vi. Whether or not Defendant provided
12 accurate itemized wage statements to the Class; and, vii. Whether or not Defendant engaged in unlawful
13 or unfair business practices affecting the Class in violation of the UCL. (Leviant Decl., ¶¶ 37-38.)

14 In the Action, Plaintiff’s claims present sufficient common issues of law and fact that
15 predominate over individual issues and warrant class certification. From their review of the
16 documentation provided, Class Counsel determined that for purposes of these claims, Defendant’s
17 policies and practices are either identical, or sufficiently similar, to raise the same questions of liability,
18 and applied to all Class Members. Because Class Members would have to prove the same issues of law
19 and fact to prevail, and because their potential legal remedies are identical, it would be preferable to
20 resolve all Class Members’ claims by means of the Settlement than to require each Class Member to
21 litigate his or her individual claims. Therefore, common questions predominate over questions that may
22 be unique to individual Class Members, and class-wide settlement is superior to any other resolution.

23 3. Plaintiff’s Claims Are Typical of Those of the Class.

24 Typicality “requires a showing that the class representative has claims or defenses typical of the
25 class.” *See, e.g., Ghazaryan v. Diva Limousine, Ltd.*, 169 Cal. App. 4th 1524, 1534 (2008), approved
26 by *Brinker Rest. Corp. v. Super. Ct.*, 53 Cal. 4th 1004 (2012). California law does not require that
27 plaintiffs have claims identical to the other class members. Rather, the test of typicality for a class
28 representative is whether other members have the same or similar injury, whether the action is based on

1 conduct which is not unique to the named plaintiffs, and whether other class members have been injured
2 by the same course of conduct. *Seastrom v. Neways, Inc.*, 149 Cal. App. 4th 1496, 1502 (2007).

3 In light of these standards, Plaintiff is typical of class members. Like other Class Members,
4 Defendant employed Plaintiff as an hourly employee during the Class Period, and Plaintiff claims that he
5 was subject to the same policies alleged to have impacted the entire class. (Leviant Decl., ¶ 36.) Plaintiff
6 alleges that he and other Class Members share the same claims stemming from Defendant's alleged
7 violations of the Labor Code and relevant wage order. In addition, Defendant's main defense that the
8 wage and hour policies and practices fully comply with California law, apply equally to the claims of all
9 Class Members. Thus, Plaintiff is typical of the Class.

10 **4. Plaintiff and Plaintiff's Counsel Will Adequately Represent the Class.**

11 Adequacy is shown where the plaintiff is represented by counsel qualified to conduct the
12 litigation and the plaintiff's interest in the litigation is not antagonistic to class members. *McGhee v. Bank*
13 *of America*, 60 Cal. App. 3d 442, 451 (1976). In other words, where the plaintiff has adequate counsel,
14 the plaintiff may represent the entire class absent any disabling conflicts of interest that might hinder the
15 plaintiff's ability to represent the class. *Id.* In the Action, Plaintiff has no conflicts of interest with other
16 Class Members and has agreed to place Class interests above Plaintiff's own. (Martinez Decl., ¶¶ 5-21;
17 Leviant Decl., ¶ 39.) Moreover, Plaintiff's counsel is experienced in wage and hour class litigation and
18 has no conflicts of interest with absent Class Members. (Leviant Decl., ¶ 39.) Thus, this Court should
19 appoint Plaintiff as the Class Representatives and appoint Plaintiff's Counsel as Class Counsel.

20 **5. Proceeding as a Class Action is Superior to Individual Actions**

21 Plaintiff contends that proceeding as a class action is a superior means of resolving this dispute,
22 as the Class Members and the Court will derive substantial benefits. Class certification would serve as
23 the only means to deter and redress the alleged Labor Code violations. *See Linder v. Thrifty Oil Co.* 23
24 Cal. 4th at 434. Furthermore, individual actions arising out of the same operative facts would unduly
25 burden the courts and could result in inconsistent results, which may be avoided by class certification.

26 **6. The Proposed Class Notice Complies with Rule 3.766(d) and (e)**

27 Notice requirements are set forth in Rules of Court, Rule 3.766. In determining the manner of
28 notice, the court must consider interests of the class, relief requested, stakes of individual class members,

costs of notifying class members, resources of the parties, possible prejudice to class members who do not receive notice, and the *res judicata* effect on class members. Rules of Court, Rule 3.766(e).

a) The Notice Procedure Satisfies Due Process

The proposed procedure for distributing the Proposed Notice is robust and meets the requirement that it have “a reasonable chance of reaching a substantial percentage of the class members.” *Cartt v. Sup. Ct.*, 50 Cal.App.3d 960, 974 (1975). There is no statutory or due process requirement that all class members receive actual notice, but in this matter, the Class Members will receive direct notice. Here, the proposed procedure includes safeguards, including, but not limited to, mailing notice to Class Members’ last known addresses; skip tracing; searches for address changes; and the re-mailing of returned notices to any forwarding addresses. This manner of giving notice complies with Rule of Court 3.766(c) because it provides a reasonable chance that Class Notice will reach most if not all Class Members.

b) The Notice is Accurate and Informative

The proposed Notice of Class Action Settlement should be approved for dissemination to the Class Members because its content complies with Rule of Court 3.766(d) in that it contains a brief explanation of the case, including the basic contentions or denials of the Parties, detailed information about Class Members’ rights to be excluded from the Settlement and object to the Settlement; a statement that the Settlement will bind all members who do not timely opt-out. Thus, the Notice also satisfies Rule of Court 3.769(f) regarding the contents of settlement notices.

The Notice also fulfills the requirement of neutrality in class notices. 3 NEWBERG § 8.39. It summarizes the proceedings and the terms and conditions of the proposed Settlement, in an informative and coherent manner, in compliance with the Manual for Complex Litigation (“MANUAL”), (2d Ed. 1993), which states that “the notice should be accurate, objective, and understandable to Class Members . . .” MANUAL, § 30.211. It makes clear that the Settlement does not constitute an admission of liability by Defendant and recognizes that this Court has not ruled on the merits. It also states that the final settlement approval decision has yet to be made. Accordingly, the Notice complies with the standards of fairness, completeness, and neutrality required of a combined settlement-certification class notice.

B. The Court Should Preliminarily Approve the Settlement Because It Is a Fair,

1 **Adequate, and Reasonable Compromise of Disputed Wage Claims**

2 California courts favor settlement. *See, e.g., Stambaugh v. Superior Court*, 62 Cal. App. 3d 231,
3 236 (1976). Unlike most settlements, class action settlements involve a court approval process that exists
4 to prevent fraud, collusion, and unfairness to class members. *Malibu Outrigger Bd. of Governors v.*
5 *Superior Court*, 103 Cal.App.3d 573, 578-579 (1980). For the reasons discussed below, this Court
6 should preliminarily approve the Settlement, allow the Parties to give notice to the Class as proposed,
7 and schedule a Final Approval Hearing.

8 **1. Class Action Settlements Are Subject to Review and Approval.**

9 Any settlement of class litigation must be reviewed and approved by the presiding court. Rules
10 of Court, Rule 3.769(a). Approval occurs in two steps: (1) an early (preliminary) review and (2) a
11 subsequent (final) review after notice has been distributed to the class members. The Preliminary
12 Approval Hearing and Final Approval Hearing coincide with these two steps. The present motion seeks
13 *preliminary approval* and the setting of a Final Approval Hearing.

14 To evaluate a settlement, the trial court must receive “*basic*” information about the nature and
15 magnitude of the claims in question and the basis for concluding that the consideration being paid for the
16 release of those claims represents a reasonable compromise.” *Kullar v. Foot Locker Retail, Inc.*, 168 Cal.
17 App. 4th 116, 133 (2008). However, the record need *not* contain an explicit statement of the maximum
18 theoretical amount that the class could recover. *Munoz v. BCI Coca-Cola Bottling Co. of Los Angeles*,
19 186 Cal. App. 4th 399, 409 (2010).

20 **2. The Parties Reached the Settlement Through Arms’ Length Negotiations**
21 **Between Experienced Counsel with the Assistance of a Highly Qualified**
22 **Mediator After Sufficient Data Was Exchanged to Evaluate Settlement.**

23 A settlement is presumptively fair where it is reached through arms’ length bargaining, based on
24 sufficient discovery and investigation to allow counsel and the court to act intelligently, counsel is
25 experienced in similar litigation, and the percentage of objectors is small.⁵ *Dunk*, 48 Cal.App.4th at 1802;

27 ⁵ Because the fourth prerequisite for the presumption to arise cannot be addressed until the final
28 approval hearing, only the first three prerequisites are relevant at this preliminary stage of the settlement
 approval process.

1 *In re Microsoft I-V Cases*, 135 Cal. App. 4th 706, 723 (2006); *7-Eleven Owners for Fair Franchising v.*
2 *Southland Corp.*, 85 Cal. App. 4th 1135, 1146 (2000). In exercising the power to approve a settlement,
3 the overriding concern is to ensure that a proposed settlement is “fair, adequate, and reasonable,” *Dunk*,
4 at 1801, considering “the complexity and likely duration of further litigation, the risk of maintaining class
5 action status through trial, the amount offered in settlement, the extent of discovery completed and the
6 state of the proceedings, the experience and views of counsel, the presence of a governmental participant,
7 and the reaction of the class members to the proposed settlement. *Id.* These factors require balancing, are
8 non-exhaustive, and, as such, trial courts should tailor the factors considered to each case and give due
9 regard to “what is otherwise a private consensual agreement between the parties.” *Id.*

10 Here, the Settlement resulted from thorough, arms’ length negotiations between experienced
11 counsel with the assistance of a skilled mediator, Steven Rottman, Esq. (Leviant Decl., ¶¶ 8-10.) Plaintiff
12 obtained data from Defendants and then carefully reviewed that information. Counsel for Plaintiff also
13 examined relevant policies and interviewed witnesses in detail about their work experiences and
14 Defendants’ practices.

15 Based on the review of data, Plaintiff estimated potential exposure and then estimated risk factors
16 to adjust the reasonable expected outcome. The investigation that Plaintiff’s counsel conducted was
17 sufficient to provide them with enough information to intelligently evaluate the estimated exposure for
18 purposes of negotiating the Settlement in view of the risks discussed below and was sufficient to allow
19 this Court to do the same. *See, e.g., Wershba v. Apple Computer, Inc.*, 91 Cal. App. 4th 224, 245 (2001).
20 A thorough data analysis was conducted.

21 **3. The Settlement Represents a Fair, Adequate, and Reasonable Compromise**
22 **of Class Members’ Claims Based on Defendant’s Estimated Liability**
23 **Exposure Given the Risks Continued Litigation Would Entail.**

24 *a) The Class Settlement is Fair, Adequate and Reasonable*

25 A settlement is not judged against what might have been recovered had a plaintiff prevailed at
26 trial and does not have to provide 100% of damages sought to be fair and reasonable. “In the context of a
27 settlement agreement, the test is not the maximum amount plaintiffs might have obtained at trial on the
28 complaint, but rather whether the settlement is reasonable under all of the circumstances.” *Wershba*, 91

1 Cal. App. 4th at 250. Accordingly, because settlements involve compromise, even one that provides for
2 substantially narrower relief than would likely be obtained if the suit were successfully litigated can be
3 reasonable given that “the public interest may indeed be served by a voluntary settlement in which each
4 side gives ground in the interest of avoiding litigation.” *Id.*

5 With respect to the claims asserted on behalf of the Class, there are serious risks that support this
6 compromise amount. These risks include, but are not limited to: (i) the risk that Plaintiff would be unable
7 to establish liability for unpaid wages, *see Duran v. US Bank Nat’l Ass’n*, 59 Cal. 4th 1, 39 & n. 33
8 (2014) (“*Duran*”); (ii) the risk that Defendants’ meal and rest period policies might not support class
9 certification or a class-wide liability finding; (iii) the risk that uncertainties about the legality of
10 Defendants’ policies and practices could preclude class-wide awards of statutory penalties; (iv) the risk
11 that individual differences between Class Members could be construed as pertaining to liability and not
12 just damages; (v) the risk that any penalty award under PAGA could be reduced by the Court in its
13 discretion; (vi) the risk that lengthy trial or appellate litigation could ensue; and (vi) the risk that violation
14 rates could prove lower than expected; (Leviant Decl., ¶ 16.) These risks are non-exhaustive.

15 In light of the uncertainties of protracted litigation, the settlement amount reflects a fair and
16 reasonable recovery for the Class Members. (Leviant Decl. ¶¶ 13-20.) The settlement amount is, of
17 course, a compromise figure. (Leviant Decl. ¶ 17.) By necessity it took into account risks related to
18 liability, damages, and the defenses asserted by Defendant. (*Id.*) Moreover, each Class Member will be
19 given the opportunity to opt-out of the Settlement, allowing those who feel they have claims that are
20 greater than the benefits they can receive under this Settlement to pursue their own claims. (*Id.*) For the
21 approximately **206** members of the Class, the average **gross** benefit is **\$1,359.22** per class member, and
22 the estimated average **net** recovery for each Class Member would be approximately **\$646.44**. Given that
23 Defendant could potentially defeat certification, this is a significant sum to have achieved in settlement.
24 Moreover, a Class Member who worked a greater number of weeks for Defendant will receive a larger
25 share of the Settlement than a Class Member who worked for a shorter amount of time during the class
26 period. (*Id.*)

27 After analyzing the claims in this matter, Plaintiff has concluded that the value of this Settlement
28 is fair, adequate, and reasonable. The Gross Settlement Amount of **\$280,000.00** is about 92.63% of the

1 **\$302,257.46** estimate of *risk-adjusted* recovery (excluding interest) at this stage in the litigation. (Leviant
2 Decl., ¶ 18.) This assessment is based on a carefully constructed model of the current fair value of the
3 case, using estimated risks, average wage rates, numbers of employees, and the amount of time covered
4 by the class period. (*Id.*)

- 5 • A reasonably estimated exposure for unpaid off-the-clock wages was calculated, with the
6 assistance of an expert, to be approximately **\$174,049.00**, based on an assumption of five
7 minutes of off-the-clock work for every shift for every Class Member. However, with the
8 high risk factor discounts for certification and liability proof, the value of that claim is
9 estimated by Plaintiff's counsel to be approximately **\$27,847.84**, assuming certification
10 probability of 40% and merits success at 40%. The off-the-clock time resulted from
11 clean up and supply restocking activities performed after clocking out, all of which was
12 disputed by Defendant. Here, a \$27,847.84 exposure has a value of about 16% of its
13 maximum, given a likelihood of success on both certification and the merits, which is an
14 approximation of the chain probability of certification multiplied by merits chances: $0.4 \times$
15 $0.4 = 0.16$. This theory of recovery has a high degree of risk because it depends on Class
16 Member estimates of the frequency and duration and is testimony dependent. There were
17 inconsistencies in information provided by Class Members, which led to the view that this
18 claim carries high risk.
- 19 • A reasonably estimated exposure for unpaid overtime and sick pay wages due to regular
20 rate errors was calculated, with the assistance of an expert, to be approximately
21 **\$13,308.00**. However, with the risk factor discounts for certification and liability proof,
22 the value of that claim is estimated by Plaintiff's counsel to be approximately **\$7,485.75**,
23 assuming certification probability of 75% and merits success at 75%. Regular rate errors
24 occurred only sporadically and affected a small portion of the Class. While this claim
25 was one of the strongest theories, legally, the value arises only if penalties are awarded,
26 and then, only for the employees who experienced the issues, which occurred
27 sporadically. There was a dispute as to whether the extra compensation was "non-
28 discretionary".
- A reasonably estimated exposure for rest break violations over the class period was
calculated at **\$249,730.00**, but with chances of certification and proof of liability (30%
and 20% respectively) for a risk-adjusted exposure of **\$20,983.80**. This claim is based
entirely on class member testimonials that rest breaks were sometimes missed due to
work demands, Plaintiff estimated the exposure assuming 100% of the Class missed one
rest break per week, while understanding that this theory carries the potential for high risk
given that employees were allowed to determine when to take rest breaks.
- A reasonably calculated exposure for meal break violations over the class period was
calculated at **\$81,749.00**, with chances of certification and liability risks (50% and 40%
respectively) resulting in a risk-adjusted exposure of **\$16,349.80**. This exposure is based
upon facial violations. Employee choice is a serious issue in the context of a meal period
claim. So long as an employee has the opportunity to take a lawful meal period, an
employee can choose to take it late, cut it short, or skip it. In addition, Defendant paid
premiums for some violations, suggesting that other "facial" violations were voluntary.
- A calculated exposure for unreimbursed expenses was estimated to be **\$4,120.00**, but
with chances of certification and proof of liability (50% and 30% respectively) for a risk-
adjusted exposure of **\$618.00**. The allegation is that employees had to purchase non-slip
shoes, facemasks, earplugs and kneepads. None of these purchases were mandated by
the employer, and it is unclear whether any of these expenses could be recovered as

required expenditures.

- The risk-adjusted penalty recovery for Labor Code § 203 penalties was estimated to be approximately **\$88,747.52**, on a maximum exposure of **\$554,672.00** (with certification and merits success chances of 40% and 40% respectively, based on all theories of unpaid wages, adjusted for the additional risk of needing to prove other elements in addition to the underlying wage claim). The need to show a knowing and intentional violation constitutes an additional risk factor.
- The risk-adjusted penalty recovery for wage statement penalties were estimated to be approximately **\$23,856.00**, on a maximum exposure of **\$149,100.00** (with certification and merits success chances of 40% and 40% respectively, based on all theories of unpaid wages, adjusted for the additional risk of needing to prove other elements in addition to the underlying wage claim). The value of this claim was just dealt a severe blow by the recent California Supreme Court decision of *Naranjo v. Spectrum Security Services, Inc.* (May 6, 2024), which significantly strengthened the good faith defense to Section 226 penalties.
- Performing risk-adjusted valuations for all claims yields a total value in the range of **\$185,888.71**, excluding PAGA.⁶
- For the PAGA Period, the number of PAGA Pay Periods at issue is estimated to be **2,447** for the 122 Aggrieved Employees. Using the most straightforward formulation of applying the “catch-all” \$100 penalty specified in Labor Code § 2699(f)(2) to each PAGA Pay Period, the total penalty exposure is approximately **\$244,700.00**. In addition, with assistance from Plaintiff’s data consultant, and after a thorough review of evidence casting serious doubt on the viability of many of the theories of penalty recover, counsel separately estimated the plausible potential PAGA exposure to be, on a penalty-by-penalty basis, to be **\$465,500.00**, without stacking of duplicative penalties for the same violation. But, assuming issues with proof and cooperation of aggrieved employees, along with the Court’s power to reduce penalties, the exposure was estimated to be **\$116,375.00**, which is 25% of the calculated exposure assuming an ideal outcome.

(See, Leviant Decl., ¶ 18.)

This result here is fully supportable as reasonable. First, it is important to recognize the wilfulness finding required for Labor Code §§ 203 and 226 is challenging to establish. (Leviant Decl., ¶ 19.) Second, rest break and meal period claims have been challenging to certify for many years, even after *Brinker*. (Leviant Decl., ¶ 19.) Arbitration agreements present a very high risk to all class claims. The Judicial Council’s Class Certification in California: SECOND INTERIM REPORT FROM THE

⁶ It is difficult to assign specific percentages to future events, but it does provide a method for attempting to reduce the concept of “very high risk” or “high risk” to a quantifiable amount. Certification of a claim is typically a binary event. One does not obtain a 20% certification; a claim is either certified or it is not. But the current expected value is best quantified by applying a risk reduction, based on the total experience of counsel. The numbers explain with math what can also be described conceptually in words.

1 STUDY OF CALIFORNIA CLASS ACTION LITIGATION - FEBRUARY 2010 (“Second Interim
2 Report”), at page 5, states that “less than a quarter of disposed cases in the study sample were certified,
3 either through a litigated motion for certification or as part of a classwide settlement agreement.” *See*,
4 Second Interim Report, at 5 (emphasis added).⁷ That “*or*” is significant. The certification rates found in
5 the study of less than 25% includes *both* contested certifications and settlement certifications, which are
6 the majority of certifications. In other words, one must assume in any wage and hour class action prior
7 to certification that a contested certification motion will have a success rate of well under 25%, and
8 probably closer to 10% as a starting point for risk evaluation. The facts of each case have significant
9 bearing on these percentages. But it cannot be disputed that certification is an exceptionally difficult
10 procedural hurdle to successfully overcome. Thus, it is not unreasonable to start from the proposition
11 that a pre-certification settlement that is 10% to 15% of the maximum plausible exposure is a valid
12 starting point for valuation. If roughly 10% of class actions are certified on a contested basis, then, on
13 average, 90% of the time a class will not be certified and the result for the class is *zero* dollars

14 Here, the estimated certification probabilities are *above* the average rate at which cases were
15 certified in California over the study years, based upon data available through the California Courts
16 websites. (Leviant Decl., ¶ 19.) In sum, well *under* 20% of all cases filed as proposed class actions are
17 ultimately certified by way of a *contested* motion. (*Id.*) Thus, the recovery falls within the expected
18 outcome under the likelihood of success metric. (*Id.*) It would also be appropriate to evaluate the result
19 by examining only the premium wages at issue (approximately \$618,836.00, *with no risk reduction*),
20 excluding penalties and interest.⁸ This Settlement achieves the goals of the litigation.

21
22
23 ⁷ The report is available at <https://www.courts.ca.gov/documents/classaction-certification.pdf> (last
24 viewed March 12, 2024).

25 ⁸ The exclusion of interest and penalties from the fairness evaluation is proper because, first, PAGA
26 penalties are discretionary (*see* Lab. Code § 2699(e)(2) (the court in its discretion “may award a lesser
27 amount than the maximum civil penalty amount specified by this part...”), and, second, courts evaluate
28 the strength of a proposed settlement without taking potential penalties or interest into consideration. *See*
Rodriguez v. West Publishing Corp., 563 F.3d 948, 955 (9th Cir. 2000); *see also* *Miller v. CEVA*
Logistics U.S.A., Inc., 2015 WL 729638, at *7 (E.D. Cal. Feb. 19, 2015) (court utilized calculation of a
defendant’s exposure exclusive of interest and penalties to determine whether the settlement fell within
the range of possible approval).

Prior to the issuance of *Moniz v. Adecco USA, Inc.*, 72 Cal. App. 5th 56 (2021), the only sources of persuasive guidance as to how to assess the reasonableness of a PAGA allocation were found in federal court decisions. In their view, a PAGA allocation, even if a small portion of the total settlement, could be reasonable if the settlement of the wage and hour claims is robust and serves the deterrent purpose of PAGA. *O'Connor v. Uber Technologies, Inc.*, 201 F.Supp.3d 1110, 1135 (N.D. Cal. 2016) (“By providing fair compensation to the class members as employees and substantial monetary relief, a settlement not only vindicates the rights of class members as employees, but may have a deterrent effect upon the defendant employer and other employers, an objective of PAGA.”). *Moniz* provided explicit confirmation that this was an appropriate yardstick by which to measure reasonableness of a PAGA settlement. *Moniz*, 72 Cal. App. 5th at 77. *Moniz*, in agreeing with federal courts that have considered how to evaluate a PAGA settlement, concluded that the class action factors are appropriately considered, along with a consideration of whether the settlement furthers “PAGA’s purposes to remediate present labor law violations, deter future ones, and to maximize enforcement of state labor laws.”

The second element (the PAGA purposes element) is also satisfied here. As held by *Moniz*, PAGA’s purposes include (1) remediation of present labor law violations, (2) deterrence of future violations, and (3) maximization of enforcement of state labor laws. Here the allocation of a major portion of settlement funds to class members still advances the goal of labor law violation remediation. The allocation of a major portion of settlement funds to class members also deters future violations. This

1 is a \$280,000.00 settlement, a good result. Deterrence is fulfilled. Finally, allocation of a major portion
2 of settlement funds to class members still advances the goal of enforcement of state labor law. This
3 settlement is, by definition, a response to alleged violations of labor laws, balanced against risks.

4 In addition, there is no evidence that a court or a commissioner had informed Defendant that its
5 conduct violated the Labor Code. *Amaral v. Cintas Corp.*, 163 Cal. App. 4th 1157, 1209 (2008); *Willis v.*
6 *Xerox Bus. Servs., LLC*, 2013 WL 6053831, *7-8 (E.D. Cal. 2013). And in *Cotter*, the court found a
7 significant reduction of the PAGA claim would be appropriate because “[t]his does not appear to be a
8 case where a company has deliberately sought to evade the law.” *Cotter*, 176 F. Supp. 3d at 941.

9 Finally, the PAGA allocation is fair. The LWDA is receiving \$13,000.00. The Class is
10 receiving, net, an estimated \$133,166.67 for the releases of *all* other claims. While the proportion is
11 tipped in favor of employees, the allocation satisfies California’s wage and hour policies.

12 **4. The Proposed Method for Allocating Settlement Funds Is Fair.**

13 The proposed method of allocating the Settlement Fund to Class Members also is fair and
14 reasonable. The Settlement Fund is to be allocated between all Class Members, based on time worked by
15 the Class Member during the Class Period, in relation to the total amount of time worked by all
16 participating Class Members. This proposed method is fair and reasonable because each Class Member’s
17 actual potential damages vary based on the number of workweeks he or she worked (e.g., Lab. Code §
18 226.7 provides for an extra hour of pay at the employee’s regular rate of pay for each violation, resulting
19 in a higher potential damage when a higher number of incidents occur). A Class Member who worked a
20 greater number of work weeks will receive a larger payment under the Settlement than a Class Member
21 who worked for a shorter amount of time. (Leviant Decl., ¶¶ 13, 17.)

22 **5. The Proposed Enhancement Award to Plaintiff Warrants Approval.**

23 The proposed enhancement of \$5,000.00 to Plaintiff is intended to recognize substantial initiative
24 and significant efforts on behalf of the Class. Courts routinely approve incentive awards to compensate
25 named plaintiffs for the services they provide and the risks they incur during class action litigation, often
26 in much higher amounts than that sought here. Factors considered when awarding an incentive include
27 the actions the plaintiff has taken to protect the class, the degree to which the class has benefitted, the
28 amount of time and effort the plaintiff expended in the litigation, the risk to the class representative in

1 commencing suit (financial and otherwise), the notoriety and personal difficulties encountered, the
2 duration of the litigation, and the personal benefit (or lack thereof) enjoyed by the plaintiff as a result of
3 the litigation. *Clark v. Am. Residential Servs. LLC*, 175 Cal. App. 4th 785, 804 (2009). Here, Plaintiff
4 contributed time to the prosecution of this matter, including bringing the case forward, and providing
5 assistance prior to the mediation with information and substantial time conferring with counsel over the
6 course of this litigation and before it was filed. (Jimenez Decl., ¶¶ 5-19; Leviant Decl., ¶ 32.) The
7 enhancement also recognizes risks Plaintiff took to be personally liable for costs regardless of the success
8 of the litigation, as well as the personal risk of facing intrusive discovery and potential disclosure to
9 future employers that Plaintiff sued an employer, making future employment less certain.

10 **6. The Proposed Award of Attorneys' Fees and Costs Is Also Fair, Adequate,**
11 **and Reasonable and Merits Preliminary Approval.**

12 The California Supreme Court removed any lingering doubt about the use of the percentage of
13 the fund method to award attorney's fees in California Courts. *Laffitte v. Robert Half Intern. Inc.*, 1 Cal.
14 5th 480, 503 (2016).⁹ Thus, this Court may and, pursuant to *Laffitte*, *should* award fees to Plaintiffs'
15 counsel based upon the percentage of the fund methodology.

16 Setting *Laffitte* aside, whether the once-again-confirmed percentage of the fund method or the
17 lodestar method is used, the outcome is roughly the same: "[F]ee awards in class actions average around
18 one-third of the recovery' regardless of 'whether the percentage method or the lodestar method is used.'" *Amaro v. Anaheim Arena Mgmt., LLC*, 69 Cal. App. 5th 521 (2021). This is also consistent with
19 counsels' experience in class cases. Here, Plaintiff's attorneys intend to request attorneys' fees of up to
20 \$93,333.33 (one-third of the GSA), and costs capped at \$22,000.00 (which includes payment for
21 mediations, filing fees, service of process fees, and other standard expenses). (Leviant Decl., ¶ 31.)
22 Given the efforts and risks involved in this case, as well as the results achieved, these amounts are within
23 the range of reasonableness and warrant *preliminary approval*.
24

25
26 ⁹ The Supreme Court also corrected the misconception that *Dunk* should be viewed as expressing
27 doubt about the use of the percentage method: "The *Dunk* court, while finding the percentage method
28 inapplicable to the settlement before it due to the lack of a readily valued common fund, did not purport
to bar its usage generally in common fund cases." *Laffitte*, 1 Cal. 5th at 501.

Phoenix, which has been selected due to its competitive bid, states that administration can be performed for a flat rate of **\$6,500.00**. In counsel's experience, based on similar wage-and-hour actions, an estimated cost of **\$6,500.00** is a fair and reasonable amount for administration fees and should be preliminarily approved. (Leviant Decl., ¶ 33.) Phoenix has also confirmed its capabilities and security protocols in the accompanying declaration.

No other pending cases asserting similar claims against Defendant are known to exist. (Leviant Decl., ¶ 20.) Moon Law Group, PC, does not have any other potential or actual cases against this Defendant. (Leviant Decl., ¶ 20.)

VI. THE COURT SHOULD SCHEDULE A FINAL APPROVAL HEARING

Plaintiff requests that the fairness hearing in this case be scheduled for about 140 days after issuance of the Court's Order granting preliminary approval. Under the Settlement, Defendant will have 15 days to provide the data to Phoenix, which will then have 14 calendar days to mail out class notice. Class Members have 60 days after mailing of the notice to submit exclusions or objections (with a 14-day extension available for re-mailed notices). Therefore, Plaintiff proposes a final approval hearing scheduled for the first available hearing date that is about 140 days after preliminary approval is granted.

VII. CONCLUSION

For all the foregoing reasons, because the Class meets the requirements for certification, because the Settlement bears all requisite indicia of fairness, reasonableness, and adequacy, and because the proposed notice procedure and forms comport with Rule 3.766 and due process, this Court should grant this Motion for Preliminary Approval and schedule a Final Approval Hearing.

Respectfully submitted,

Dated: December 11, 2025
