**DECLARATION OF GRAHAM S.P. HOLLIS
IN SUPPORT OF PLAINTIFFS' MOTION
FOR FINAL APPROVAL OF CLASS AND
PAGA ACTION SETTLEMENT**

Date: August 19, 2025
Time: 10:30 a.m.
Dept: SSC-12
Judge: Hon. Carolyn Kuhl

Action Filed: April 2, 2024
Trial Date: None Set

1 I, Graham S.P. Hollis, declare as follows:

2 1. I am an attorney at law licensed to practice before all courts of the State of California. I am
3 a shareholder of the law firm GrahamHollis, APC, in San Diego, California. Along with myself, co-
4 shareholder, Nathan J. Reese, and associate, Alex M. Kuner, are counsel of record for Plaintiff Douglass
5 Olmsted ("Plaintiff Olmsted") and the primary attorneys from my firm handling this case. I am thoroughly
6 familiar with, and have personal knowledge of, all the facts set forth herein. If called as a witness, I could
7 and would competently testify to the information set forth below.

8 2. I submit this declaration in support of Plaintiffs' Motion for Final Approval of Class and
9 PAGA Action Settlement. This Declaration supplements my previous declaration filed on
10 November 22, 2024, in support of the Plaintiffs' Motion for Preliminary Approval ("Hollis Preliminary
11 Approval Decl.").

12 3. A true and correct copy of the parties' Class Action and PAGA Settlement Agreement and
13 Release ("Settlement Agreement") was attached to the Declaration of James Hawkins in support of
14 Plaintiffs' Motion for Preliminary Approval, filed on November 22, 2024, and incorporated herein by
15 reference.

16 **CLASS COUNSEL'S CLASS ACTION EXPERIENCE**

17 4. I have been a member of the State Bar of California since 1985. I have personally tried
18 many bench and jury trials to verdict in various courts in California and I have represented employees and
19 employers in employment litigation matters since 1995. My involvement in various forms of class action
20 litigation spans more than twenty years.

21 5. As outlined in my previous declaration in support of the Motion for Preliminary Approval,
22 I have extensive experience handling complex wage and hour class actions. My knowledge regarding
23 California wage and hour laws is evidenced by my successful representation of tens of thousands of
24 employees in wage and hour class action lawsuits in state and federal courts throughout California. (See
25 Hollis Preliminary Approval Decl., at ¶¶ 17-23.)

26 6. My firm currently serves as plaintiffs' counsel in approximately 100 wage and hour cases
27 pending in California. The firm has been appointed as class counsel and has had settlements approved as
28 being fair, reasonable, and adequate in well over 150 wage and hour class action lawsuits with claims

1 similar to those alleged here. An up-to-date list of wage and hour cases that my firm has litigated is
2 attached hereto as **Exhibit 1**.

3 7. Based on my experience in class action litigation, I believe that the settlement before the
4 Court represents an excellent result for all Class Members. Although Plaintiffs and Class Counsel
5 compromised with Defendant in order to achieve the settlement, the compromise is extremely fair and
6 reasonable considering the substantial risks involved in pursuing further litigation.

7 **CLASS COUNSEL'S FEES AND COSTS ARE REASONABLE**

8 8. The Settlement Agreement permits Class Counsel to request that the Court award from the
9 \$2,800,000 Gross Settlement Amount: (a) attorneys' fees in the amount of 35% of the Gross Settlement
10 Amount, or \$980,000; and (b) litigation expenses of not more than \$45,057.18 for actual litigation costs
11 incurred. Class Counsel have entered into a written agreement dividing the fee award as follows: 37.5%
12 for GrahamHollis, APC; 37.5% for James Hawkins APLC; and 25% for Crosner Legal, PC. The plaintiffs
13 in each respective case have given their written consent to the fee-sharing agreement.

14 9. I believe that Class Counsel's request for \$980,000 in attorneys' fees and \$45,057.18 in
15 reimbursement for litigation costs incurred is fair, reasonable, and appropriate in light of the amount of
16 work performed, the benefits conferred upon the Class Members, Aggrieved Employees, the state of
17 California, and the general public, the complexity of the issues involved, and the associated risks borne
18 by Class Counsel in prosecuting this matter on a contingency basis.

19 10. The settlement is a great result for the Class Members and equity dictates that those who
20 benefit from the settlement should contribute to a pro-rata share toward the payment of attorneys' fees
21 that brought about the settlement.

22 11. In my experience, plaintiffs in employment law cases are typically unable to pay their
23 attorneys on an hourly basis and can only obtain representation if they can find counsel who are willing
24 to accept their case on a contingency basis and advance either all or a significant portion of the costs. To
25 that end, it is important that competent counsel is incentivized to bring complex and risky contingency
26 cases such as this case by awarding attorneys' fees that are commensurate with the fees that the attorneys
27 would have received had they negotiated a fee arrangement with the Class Members *ex ante*.

28 12. Although case law supports as high as a 50% fee award on common fund settlements of

1 less than \$10 million, Class Counsel's request for an attorneys' fee award of \$980,000.00, which
2 represents 35% of the Gross Settlement Amount, is both reasonable and fair in light of the amount of work
3 performed and the amount of resources and labor employed in the prosecution of this action. Attached
4 hereto as **Exhibit 2** is a copy of my firm's contemporaneous billing logs, reflecting the amount of time
5 billed by each timekeeper at my firm in one-tenth of an hour increments.

6 13. My firm has taken on substantial risk and expense in order to achieve the ultimate result in
7 this action. My firm bore the risk and costs of this action on a pure contingency basis. For instance, my
8 firm prepared for and prosecuted Plaintiffs' claims, advanced all costs, and deferred payment of fees with
9 no guarantee that any of the fees or litigation costs incurred would ever be recovered. My firm was also
10 precluded from taking other fee-generating employment, since this action occupied a significant portion
11 of my firm's time and resources. To date, my firm has not been compensated for any of its time or expense
12 since this action began.

13 14. I believe the amount of attorneys' fees requested here is justified by: (a) the knowledge and
14 skill that Class Counsel provided for Plaintiffs and the Class; (b) the complexity of the issues involved in
15 this litigation; (c) the sizeable amount of work involved in achieving this excellent result for the Class
16 Members by bringing the Action to an efficient resolution prior to trial; and (d) the associated risks borne
17 by my firm by litigating this matter on a purely contingency basis.

18 15. Since Plaintiff Olmsted first contacted my office about his potential legal claims, my office
19 has completed a substantial amount of work on his behalf and on behalf of the Class Members.

20 16. The reasonableness of the requested attorneys' fee award to Class Counsel is further
21 supported by the lodestar cross-check. Indeed, there has been an extraordinary amount of work performed
22 by my firm, as well as the other firms involved in this litigation, over the past few years.

23 17. For instance, my firm attended a mediation on February 3, 2022, with the Hon. Carl J.
24 West, which did not result in a resolution of Plaintiff Olmsted's claims. In advance of this mediation, my
25 firm reviewed a substantial production of employment records and reimbursement records, some of which
26 consisted of tens of thousands of line items of information.

27 18. My firm also completed in-depth interviews with approximately 20 employees regarding
28 their experience working with Defendant, prior to attending the February 2022 mediation.

1 19. Following the unsuccessful February 2022 mediation, Defendant vigorously litigated
2 Plaintiff Olmsted's case, requiring substantial opposition from my firm. For instance, Defendant filed a
3 Motion to Stay Proceedings Pending the Supreme Court's Decision in *Viking River Cruises v. Moriana*,
4 596 U.S. 639 (2022), which required my firm to file an Opposition to the Motion to Stay and argue on
5 Plaintiff Olmsted's behalf at the hearing thereon.

6 20. Following the decision in *Viking River Cruises*, Defendant then filed a Motion to Compel
7 Individual Arbitration and to Dismiss Representative PAGA Action ("Motion to Compel Arbitration"),
8 which required considerable research and thoughtful opposition as it was a novel motion at the time it was
9 filed. The Court granted Defendant's Motion to Compel Arbitration on September 15, 2022, ordering
10 Plaintiff Olmsted's individual claims to arbitration and, significantly, dismissing his non-individual
11 PAGA claims.

12 21. Plaintiff Olmsted filed a Notice of Appeal before the Sixth Appellate District on
13 November 9, 2022, seeking to reverse the portion of the trial court's order dismissing his representative
14 PAGA claims. After the appeal was fully briefed and the parties prepared for oral argument, the California
15 Supreme Court issued its decision in *Adolph v. Uber Technologies, Inc.*, 14 Cal.5th 1104 (2023), which
16 effectively decided the issue of Plaintiff Olmsted's appeal. The parties therefore stipulated, on
17 July 27, 2023, that Plaintiff Olmsted's appeal should be granted and the matter remanded to Superior
18 Court.

19 22. While the appeal was ongoing, Plaintiff was pursuing his individual claims in arbitration.
20 After Defendant failed in its obligation to timely pay an arbitration invoice, Plaintiff moved to vacate the
21 order compelling arbitration pursuant to Code of Civil Procedure section 1281.98.

22 23. My firm conducted written discovery in both the arbitration and civil proceedings. My firm
23 also prepared for and noticed the depositions of Defendant's witnesses. My firm also responded to written
24 discovery propounded by Defendant and defended Plaintiff's deposition, which occurred over multiple
25 days.

26 24. My firm keeps contemporaneous billing detail logs, which reflect time billed in one-tenth
27 of an hour increments. After exercising billing discretion and removing time entries for several individuals
28 billing less than ten hours, my law firm's lodestar is \$ \$746,904.00, which represents a total of 1,288 hours

of work performed. This lodestar includes time spent litigating this action from its inception through the date of filing this Motion, as well as an anticipated 15 hours of attorney time to be spent preparing for and attending the Final Approval Hearing, overseeing the settlement distribution procedure, responding to Class Members' inquiries over the next few months, and addressing any potential issues regarding the redistribution of residue from any uncashed settlement payments. Attached hereto as Exhibit 2 are true and correct copies of GrahamHollis' billing records.

25. In setting the hourly billing rates for myself and my associates, I consulted with attorneys with national reputations, experience, and law practices similar to my firm and determined that the rates we charge are reasonable for attorneys with our experience, reputation and expertise, and are consistent with the prevailing market rates for attorneys and paralegals of comparable levels of experience and reputation. The firm's billing rates are also comparable to the rates approved by other trial courts in similar class action litigation. The billing rates for the lawyers and paralegals who primarily worked on this case are as follows:

- Graham S.P. Hollis/Shareholder/Admitted 1985 \$1,150
- Nathan J. Reese/Shareholder/Admitted 2012 \$1,000
- Alex M. Kuner/Associate/Admitted 2018 \$675
- Nora J. Steinhagen/Associate/Admitted 2019 \$550
- Senior Paralegals \$320
- Paralegals \$280
- Case Managers \$260
- Law Clerks \$260

26. After exercising partner discretion in reducing some billed hours, the following summarizes the hours spent by the respective timekeepers as part of this litigation:

Timekeeper	Experience	Hours	Rate	Total
Alex M. Kuner	Attorney (California 2018)	165.0	\$ 675.00	\$ 111,375.00
Graham S.P. Hollis	Attorney (California 1985)	56.9	\$ 1,150.00	\$ 65,435.00
Nathan J. Reese	Attorney (California 2012, Washington 2025)	221.0	\$ 1,000.00	\$ 221,000.00

Timekeeper	Experience	Hours	Rate	Total
Nora J. Steinhagen	Attorney (Minnesota 2019, California 2021)	386.6	\$ 550.00	\$ 212,630.00
Senior Paralegals	5+ Years of Experience	260.3	\$ 320.00	\$ 83,296.00
Paralegals		81.8	\$ 280.00	\$ 22,904.00
Law Clerks/Case Managers		116.4	\$ 260.00	\$ 30,264.00
Total		1288.0		\$ 746,904.00

27. All of the time referenced above was well spent on all aspects of litigating this case, including the initial factual and legal investigation, drafting arduous pleadings and motions including an appellate brief, reviewing and analyzing documents produced by Defendants, interviewing witnesses, preparing the damages analysis and mediation brief, participating in mediation, reviewing and negotiating the terms of the finalized Settlement Agreement, moving for preliminary approval, monitoring the Class Notice process, responding to Class Member inquiries, and assisting in the preparation of the motion currently before the Court.

28. Now, having investigated, analyzed and overcome the obstacles mounted against Plaintiffs' claims and negotiated an excellent result on behalf of Class Members, Class Counsel should be compensated with a fee award that properly and reasonably compensates Class Counsel for these efforts.

29. Class Counsel collectively seeks reimbursement in the amount of \$45,057.18 for costs and expenses incurred in connection with this Action. My firm's litigation costs include filing fees, court fees, copying, delivery, postage, telephone charges, expenses related to court hearings, and mediation fees. My firm maintains accounting books and records in its ordinary course of business. The costs and expenses identified in the following summary are taken from expense records, receipts, credit card statements, and check records.

Claims Administrator	\$4,437.33
Court Call	\$188
Document Imaging	\$27.28
DocuSign	\$100
Filing Fees	\$21
Filing/Court Fees	\$3,759.02

Mediator / Arbitration	\$7,950
Online Research	\$3,231.3
Overnight Delivery Service	\$88.85
Photocopies - B&W	\$23.95
Photocopies - Color	\$36
Postage	\$24.13
Print - B&W	\$37.1
Print - Color	\$40
Telephone/Electronic Communications	\$1,257.13
TOTAL	\$21,221.09

30. These amounts represent all of my firm's out-of-pocket expenses and are the types of expenses normally charged to fee-paying clients, including filing fees, mailing fees, copying and scanning, postage, and mediation fees. All costs incurred were necessary for the prosecution of this action, would normally have been billed to a client paying for my firm's services on a non-contingency basis, and are reasonable for a case such as this, in which substantial discovery and investigation occurred over roughly four-and-one-half years since Plaintiff Olmsted filed his initial complaint.

31. I reviewed the billing and expenses described above and certify to the Court that these records accurately reflect the work reasonably and necessarily performed, and the expenses reasonably incurred, in connection with the litigation of this matter.

32. I respectfully request that the Court issue an order granting final approval of the requested attorneys' fees award of \$980,000 and litigation costs in the amount of \$45,057.18 to Class Counsel.

THE PAGA PENALTIES ARE REASONABLE

33. As set forth in Plaintiffs' preliminary approval papers, the settlement allocates \$140,000 of the Gross Settlement Amount to PAGA penalties, 75% (\$105,000) of which constitutes the LWDA Portion of the Settlement. The remaining 25% (\$35,000) will be distributed to the Aggrieved Employees based on their respective pay periods worked during the applicable period. The PAGA penalties were negotiated in good faith, were not a result of self-interest at the expense of the Aggrieved Employees, and

are within the range of similar amounts included in other wage and hour class action settlements.

THE CLASS REPRESENTATIVE SERVICE PAYMENTS ARE REASONABLE

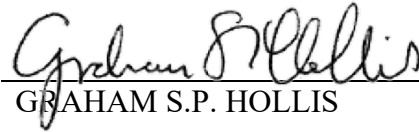

34. Based on my experience, it is my opinion that the requested Class Representative Service Payments of \$10,000 each to Plaintiffs Douglass Olmsted, Andrew Dat, and Fidel Antonio Munoz, for a combined total of \$30,000, are reasonable and warranted in light of their time and effort spent working on this case and the benefit their efforts conferred upon the Class. Over the course of this litigation, my client, Plaintiff Douglass Olmsted, has spent a significant amount of time assisting counsel with its investigation and prosecution of this action. As set forth in his declaration in support of preliminary approval, he estimates that he has spent approximately 55-60 hours working on this case. A copy of the declaration Plaintiff Olmsted submitted at the time of Preliminary Approval is reattached here as **Exhibit 3**.

35. In agreeing to serve as Class Representatives, Plaintiffs formally agreed to accept the responsibility of representing the interests of all Class Members, not just their own. My client, Plaintiff Olmsted, regularly communicated with my office, provided relevant documents and information, identified witnesses, assisted in preparing and evaluating the case for mediation, evaluated and approved the settlement on behalf of the Class, and assisted with preparing his declarations. Plaintiff Olmsted also assumed liability for the litigation costs in the event his claims were unsuccessful, which, for a case like this, could easily total tens of thousands of dollars. In addition, he faced the potential negative notoriety associated with suing his former employer and took a risk that it may be difficult for him to find future employment. Finally, under the terms of the settlement, Plaintiff Olmsted signed a general release as to all potential claims he may have against Defendant, an expansive release that is not required of other Class Members.

36. In my opinion, the requested Class Representative Service Payments are fair when compared to the payments approved in similar cases with which I am familiar. The awards sought were disclosed to Class Members in the Court-approved Class Notice, and to date, I am informed that no Class Members have objected to the awards. I believe the requested awards to all of the named plaintiffs are appropriate and justified as part of the overall settlement.

37. For the reasons stated above, I respectfully request that the Court issue an order granting Plaintiffs' Motion for Final Approval of Class Action and PAGA Settlement.

1 I declare under penalty of perjury under the laws of the State of California that the foregoing is
2 true and correct. Executed this 23rd day of July, 2025, in San Diego, California.

CLASS AND REPRESENTATIVE ACTION

**DECLARATION OF DOUGLASS OLMSTED
IN SUPPORT OF PLAINTIFFS' MOTION
FOR PRELIMINARY APPROVAL OF
CLASS AND PAGA ACTION SETTLEMENT**

Date:
Time:
Dept: 12
Judge: Hon. Carolyn Kuhl

Action Filed: April 2, 2024
Consolidated Complaint Filed:
Trial Date: None Set

1 I, Douglass Olmsted, declare as follows:

2 1. I am the named plaintiff in a PAGA representative action case pending against Mercury
3 Insurance Services, Inc. ("Defendant"). The representative action was filed on January 29, 2021, in Santa
4 Clara County Superior Court, Case No. 21CV376878, entitled *Douglass Olmsted v. Mercury Insurance*
5 *Services, Inc.*

6 2. I know all of the facts stated in this declaration, and if called as a witness, I would testify
7 truthfully as to these facts.

8 3. I was employed as a Property Claims Field Specialist II from approximately September 13,
9 2017, to October 1, 2019, working out of my home office and also traveling to sites throughout various
10 counties in California. Throughout my time of employment, I was paid on an hourly basis and I typically
11 worked about 40 hours per week.

12 4. In this position, I was responsible for conducting in-person interviews and investigations
13 of claims made by Defendant's clients. My position required me to work from my home office and also
14 to travel to conduct these interviews and investigations. When I was working out of my home office, I
15 used both my personal equipment and company-provided equipment.

16 5. Defendant required me to work from home with a mixture of my own personal equipment,
17 as well as equipment issued by Defendant. While I used equipment provided by Defendant, I did not
18 receive any reimbursement for the use of my home internet or other utilities. Even after I requested on
19 multiple occasions to be reimbursed for the use of my home internet to complete my work from home,
20 Defendant never reimbursed me for these expenses.

21 6. During my employment with Defendant, I was not paid for all time worked, including
22 overtime. This unpaid time included training time, travel time, time I was required to work while off the
23 clock, and premium wages to which I should have been entitled for missed meal periods and rest periods.

24 7. For instance, I often had difficulty logging into Defendant's timekeeping system, as it
25 would be unresponsive or slow due to heavy use by many employees company-wide all logging in at the
26 same time to clock in or out. As a result, I would regularly work off the clock for 10-15 minutes a day
27 until the timekeeping system was responsive and I could clock in or out.

28 8. I was also required to work off the clock due to my case load and the company requirement

1 that all documents related to a particular claim be saved into the appropriate file within 24 hours of
2 receiving such documents. I often could not complete these tasks during the day while I was traveling
3 from site to site, so I would have to complete filing tasks off the clock after my shift in order to comply
4 with the 24-hour policy.

5 9. The demands of my case load also regularly resulted in taking late, short, or interrupted
6 meal periods, or missing meal periods altogether. For example, I would typically start a shift at 8:00 a.m.,
7 and I would be traveling from place to place to meet with Defendant's clients or to inspect insured
8 property. I would conduct these meetings until approximately 3:00 p.m., at which point I could finally
9 clock out for a meal period. I was never informed that I should report these late, short, interrupted, or
10 missed meal periods to Defendant.

11 10. For many of the same reasons, I was also not provided with rest periods. In addition to the
12 travel schedule described in the preceding paragraph, I would also be assigned roughly ten to twelve new
13 assignments each week, all of which required initial contact and notes within four hours of receipt. After
14 making initial contact, I had to schedule an in-person interview and investigation of the claim at the
15 insured's home. At most, I could complete two to three in-person interviews and site visits per day,
16 depending on their location, as each site visit required anywhere from one to four hours, plus travel time
17 in between which could be as much as one hour or one-and-a-half hours. As a result, my workload, in
18 conjunction with company requirements, did not allow for me to take rest periods.

19 11. Despite regularly missing meal periods and rest periods, or having breaks that were late,
20 short, or otherwise interrupted, I was not paid premium wages for these noncompliant breaks.

21 12. I first met with my attorneys around March of 2020. I spoke with my attorneys and
22 explained to them my experience working for Defendant. At the time I spoke with my attorneys, I believed
23 other employees working for Defendant were also affected by the violations that I claimed against
24 Defendant.

25 13. At that time, I agreed to represent all other current and former non-exempt employees who
26 worked for Defendant in the State of California and to obtain relief for the entire group of employees who
27 had suffered the same violations as I had. I also agreed to consider the interests of those employees just
28 as I would consider my own interests.

14. When I agreed to represent other employees who worked for Defendant, I understood it was my duty to be readily available and to participate actively in this case. I knew that I might be required to review documents; search for documents and produce them to my attorneys; answer written interrogatories and questions; answer oral questions during a deposition, to testify truthfully under oath, and be available to appear in Court, if necessary.

15. I understood that I needed to keep aware of the status and progress of the lawsuit, and I have consistently done so since the start of this case.

16. I realized I was taking a significant amount of risk in filing a representative action against Defendant. I understood that as a named plaintiff in this lawsuit, I was taking risks other workers were not. For example, I understood I might be responsible for the payment of Defendant's court-awarded litigation costs in the event I did not prevail in the litigation.

17. I also knew that when I decided to search for employment, my name could easily be located on the Internet or through other searches and that any prospective employer may find out that I had sued my former employer as a class representative.

18. Even though I knew I was taking risks, I knew I had to do what I believed was right and pursue claims on behalf of myself and other workers and attempt to recover the wages and monies owed to us.

19. I am not aware of any personal claim I have against Defendant that would be inconsistent with the interests of the Class. I am not aware of the existence of any conflict of interest between myself and the Class.

20. Since I met with my attorneys in 2020 until now, and for more than four years, I have kept aware of the status of the lawsuit and provided my attorneys with all the documents and information I had in my possession for them to use in the litigation. I have spent large amounts of time and effort pursuing my claims and the claims of the other similarly situated workers from the time I retained my attorneys to the present date.

21. After retaining my attorneys, I spent hours in meetings and on the phone discussing the facts of my case with my attorneys Graham S.P. Hollis, Nathan J. Reese, Nora J. Steinhagen, and Alex M. Kuner. I spent several hours discussing the facts related to my work with Defendant, including

1 discussing my job duties and responsibilities, my job position, and the hours and days I worked, and how
2 I was compensated.

3 22. I also spent several hours looking for documents related to my claims against Defendant
4 that I had kept, and I sent them to my attorneys. I further spent time on telephone calls with my attorneys
5 reviewing and discussing the documents I provided.

6 23. After Defendant produced a copy of my employment file, I spoke with my attorneys to
7 discuss the content of these documents and review them for accuracy. I also spent time reviewing all the
8 documents I signed during my employment with Defendant.

9 24. My attorneys received documents from Defendant after the litigation was filed and
10 contacted me to go through the documents and information they had received from Defendant as part of
11 the informal discovery in the case.

12 25. In 2021, my attorneys informed me that Defendant agreed to participate in a mediation
13 session. I believed it was in the best interest to attempt to resolve this case early instead of engaging in
14 additional costly and time-consuming litigation in court.

15 26. I agreed to participate in a mediation session and spent many hours discussing the details
16 of the case with my attorneys in preparation for the mediation, which was scheduled for February 7, 2022.

17 27. As part of the mediation preparation, I reviewed documents Defendant gave to my
18 attorneys, and I provided my attorneys with details of my personal experience working with Defendant. I
19 made myself available for the February 7, 2022, mediation in case my attorneys needed to speak to me;
20 and my attorneys did reach out to me throughout the day. Although we did not reach a settlement at
21 mediation, I continued to communicate with my attorneys about status of my case and provide valuable
22 information regarding my employment with Defendant, including throughout the appeal filed in my case
23 in late 2022.

24 28. In December of 2022, I responded to written discovery propounded by Defendant. In order
25 to provide a response, I spent several hours looking for documents, meeting with my attorneys to assist
26 them in preparing responses, and I reviewed the written responses. I further produced hundreds of pages
27 of documents in response to Defendant's requests.

28 29. In May of 2023, I had my deposition taken by Defendant's attorney. I spent several hours

1 meeting with my attorneys to prepare for my deposition. The deposition occurred over two days, and I
2 had to take two days off work to attend.

3 30. In August of 2024, my attorneys informed me of the settlement reached by Plaintiff Munoz
4 in his class action case against Defendant and the possibility of resolution of the representative case I filed,
5 along with Plaintiff Dat's separate class action case against Defendant. My attorneys explained to me the
6 possibility of a global settlement of the three cases pending against Defendant and what would be required
7 of me as a representative for the settlement class.

8 31. My attorneys and Defendant's attorneys, along the attorneys for Plaintiffs Munoz and Dat,
9 worked to prepare and finalize the Settlement Agreement in the months following. Throughout this time,
10 I continued to stay involved in every aspect of the case.

11 32. I spent significant time reviewing the Settlement Agreement before signing it on November
12 4, 2024.

13 33. It is my opinion that the proposed class action settlement achieved is fair, adequate and
14 reasonable.

15 34. I believe I have put myself at significant risk by pursuing this lawsuit and I feel my
16 participation as the Class Representative in this class action lawsuit could inhibit my ability to seek gainful
17 employment in the future.

18 35. I have always considered the interests of the class just as I would consider my interests and
19 placed the interests of the class above my own since I started this class action case.

20 36. Over the past four years, I estimate I have spent approximately 55 to 60 hours working
21 with my lawyers, performing the various tasks described in this declaration, including actively
22 participating in the preparation for mediation, and reviewing the class action and PAGA action settlement
23 agreement, not only for my own benefit but for the benefit of all other class members. To this date, I
24 continue to regularly communicate with my attorneys about the progress of the case.

25 37. I am requesting the Court approve a \$10,000 service payment. I believe this amount is very
26 reasonable considering the significant amount of work, time, and effort I have spent with my attorneys to
27 achieve this settlement. The time and service I provided to the class resulted in the parties agreeing to
28 settle the case and in a positive outcome to the entire class, who will receive a share of the settlement

1 funds in this case. I firmly believe that without me standing up for myself and the class, many of these
2 employees' rights would go unvindicated. The fact I was able to obtain a result that effects over 3,700
3 people is significant.

4 38. I also believe the amount of the class representative service payment is very reasonable
5 considering the financial and professional risks I took by bringing a representative PAGA action lawsuit
6 against my former employer, and the risk of not prevailing in the lawsuit and being responsible for the
7 payment of costs.

8 39. I also believe it is very reasonable because I have agreed to release Defendant of all known
9 and unknown claims that I have or may have against it. The release that I have agreed to is significantly
10 broader than the release applicable to the other Class Members in this case.

11 40. I have been extremely pleased with my attorneys' work on this case. I found that they
12 worked effectively to attain the excellent results achieved for the benefit of all class members.

13 41. I am committed to this case and will continue to make myself available as needed in the
14 settlement process.

15 I declare under penalty of perjury under the laws of the State of California that the foregoing is
16 true and correct. Executed this 22 day of November, 2024, in Brentwood, California.
