Simpluris Security Summary – White Paper

Simpluris is committed to the security and overall protection of not only our data and information but our client's data and information, as well. As a demonstration of our commitment, we maintain SOC 2 Certification which requires strict adherence to policies and procedures surrounding information security, including processing and storage of confidential customer data. Simpluris supports a comprehensive, written Information Security Program that complies with all applicable laws and regulations (e.g. HIPAA, Gramm-Leach-Bliley Act, MA 201 CMR 17.00) and is designed to (a) ensure the security, privacy and confidentiality of Client and Class Member Information, (b) protect against any reasonably anticipated threats or hazards to the security or integrity of Client or Class Member Information, and (c) protect against unauthorized access to, use, deletion, or modification of Class Member Information. Simpluris has designated specific employees to be responsible for the administration of its Information Security Program. Also, Simpluris regularly and routinely monitors, tests, and updates our Information Security Program.

Simpluris uses Client and Class Member Information only for the purposes for which its' clients provide it, as described in any Agreements or Court Orders governing the provision of Simpluris' services in any particular case. At Simpluris, we continuously evaluate the effectiveness of the safeguards for controlling these risks to data and bank accounts. Simpluris restricts access to Class Member Information only to those employees, agents, or subcontractors who need to know the information to perform their jobs. Simpluris performs background checks of all its employees that will have access to Sensitive Personal Information, including a review of their references, employment eligibility, education, and criminal history to ensure they do not pose a risk to the security of Client or Class Member Information.

Simpluris adheres to the following industry best practices to safeguard its systems which process, store or transmit Client and Class Member Information:
